Narrative Explanation

At the time of inspection cleaning was in progress. No sign of illness/injury in the general population. Food is appropriately stored and isolation is intact. Walls/Floors throughout the facility continue to chip/peel. Maintenance is spot painting the larger areas. This will be adequate while the facility prepares to move into the new building. (0202, 0204). Plans are in place to move into the new building in March 2014. Records are in order. No additional inadequacies were noted at this facility.

Did a walk through of the new facility located at 201 Government Services Drive. Facility is new and looks great. All surfaces with which the animals come into contact are impervious to moisture. All enclosures have been installed with the exception of the feline enclosures in the feral room, feline intake, and feline isolation. Please contact me once these have been installed. Floors in the Sally Port are waiting to be sealed. Perimeter fencing is not yet complete around the facility but is expected over the next month. No inadequacies were noted at the time of inspection. This facility is ready for animals to move in once the parking lot is complete.
