Davidson County Animal Shelter	United Animal Coalition	Lexington	NC

Narrative Explanation

New inspection performed to issue license as the ownership has changed to the United Animal Coalition. UAC took over at the first of the year therefore paperwork is still in the process of being changed over to their system. Cleaning was in progress at the time of my inspection. Overall cleanliness was good. Floors and cages were being scrubbed thoroughly. Sanitation methods are adequate. Animals were being removed from kennels during the process. Medical charts were well documented on animals in isolation rooms.

The following items need to be addressed:

1) (0101) 52J.0101 reads "(4) disposition of animals including name and address of person to whom animal is sold, traded or adopted and the date of such transaction; in the event of death, the record shall show the date, signs of illness, or cause of death if identified; if euthanized, the record shall show date and type of euthanasia;" Therefore all dogs/cats that are transferred must have documentation to show this with date, name and address of where animal was sent. If an animal dies in the shelter the signs of illness must be documented if known.

2) (0203) Cracks in concrete pad in outside play yards need to be filled/sealed.

3) (0204) In cat adoption rooms the paint has began to chip at the bottom of the walls. These areas need to be repainted as cats are free to roam in this room and have direct contact with them. Marsha stated that this is on her list of items to have addressed.

Overall husbandry is good, all animals in general population appeared healthy and all areas were of ambient temperature. Euthanasia is being administered when needed by local veterinarian until facility's DEA license is issued. Once this occurs I will perform euthanasia inspection. Ok to license.
