Narrative Explanation, if needed

Follow up inspection performed. The following items were addressed:

1) (0103) All dogs currently boarding have current rabies vaccinations.

2) Outside play yard around the neighboring house is not being used as this area has a wooden fence and no perimeter fence.

3) (0203) Wooden posts have been wrapped with pipe to make them impervious to moisture in outside play yards.

GREENSBORO PET SPA AND RES(	JOSEPH LINNARNEY, DVM	GREENSBORO	NC

Narrative Explanation, continued

4. (0203) Gravel has been added to outside play yards. Continue to add gravel as needed in high traffic areas

5. (0203) Gate has been repaired in first outside play yard.

6. (0203) Door to small outside play yard has been covered at the bottom with material impervious to moisture. Wooden pallets will be pulled out this week.

7. (0207) Leaves are constantly being cleaned up, ensure that they do not build up under chain length

8. (0207) Cleaning has improved in cat room.

9. Water heater was replaced with a brand new water heater.

The following items still need to addressed:

(0203 & 0204) Concrete drains and floors in outside kennels need to be reconstructed. They have a contractor in line to begin this process towards the end of May. We discussed also that all kennels must have a cross contamination barrier at a minimum of 4".

New inadequacies to address are as follows:

1. (0204) Paint is chipping throughout the floors in inside kennels of A and C. Painting needs to be done as soon as possible in this area as this is the most commonly used areas

2. (0207) Outside Kennels in kennel C had feces in the drains that had began to turn white as they had not been cleaning out the drain once they sprayed the feces out. Kennels should be cleaned twice daily including disposal of feces.

Manager will keep me posted as to when the concrete work begins. If this is not completed by the end of June a disapproved inspection may be issued. I will follow up by end of June or before if work is completed.
