Narrative Explanation, if needed

Follow up inspection performed from previous inspection on 3/23/15. Upon arrival staff disappeared immediately. Dogs were moved around and staff was rushing around to cover things before I went through to do inspection. Staff member was questioned about this and she stated, "They probably didn't have as much to hide as they thought". In the lobby area the wooden gates were not covered at time of inspection. The main gate had velcro on the inside of the gate but plexiglass was removed. The two small dog areas did not have plexiglass or any other covering on the wooden doors at time of inspection either. All wooden doors must be

Narrative Explanation, continued

covered with material impervious to moisture. This was on the last inspection as well.

Currently dogs were allowed to roam free behind the front desk area. This area is all wood and has become damaged in some areas. This door must be kept closed to ensure that dogs do not have access to this area.

(0204) Cracks throughout the kennel were caulked in April but this did not adhere and over 75% of this has come up exposing the cracks again. These must be filled in.

(0204) Ratio is to be 1:10 at all times. Ratios were off in all the play yards in the main areas. There were 1:15 in two of the kennels and 2:21 in the larger area. The problem was corrected during inspection however this is an ongoing inadequacy at each inspection.

This inspection is contingently approved. I will return in 30 days to ensure that the wood is covered and that the cracks are adequately filled in. I will also randomly do inspections to ensure that the ratio is being properly followed.
