Narrative Explanation, if needed

Records requested were current on puppies available for adoption. Cage doors to drying cages are beginning to rust. These doors need to be taken down, sanded and painted or replaced. At time of inspection there were plastic shelves used for resting surfaces. These shelves are being chewed on and could pose a danger to the puppies if pieces are swallowed and being that they are chewed/damaged they cannot be sanitized properly. These need to be removed from all enclosures if damaged. No other inadequacies noted. Water was available for all puppies and all appeared healthy.
