Narrative Explanation

Performed an annual inspection.

Since the last inspection the staff has continued to spot paint the walls in the interior where needed. Paint has been applied to the exterior kennels but there is still areas of chipping paint.

Rust on gates have been painted to be in good repair and sealed.

A new roof has been constructed over the exterior kennels and looks good. Was constructed with a grant and volunteer help.

Inadequacies note are:

0203- Impervious to moisture- Outdoor concrete is not sealed and is not impervious to moisture. Seal concrete to be impervious to moisture. (Noted in previous inspection)

0203- Impervious to moisture- Paint in outside enclosures have started to chip in areas. Paint/seal areas to be impervious to moisture. (Noted in previous inspection)

0204- Enclosures in sound repair- Rusting on the outside of the building containing dog quarantine, repair/cover to make in good repair. (Noted in previous inspection)

Not inadequate yet but enclosure gates are being chewed upon and causing damage that could be unsafe to animals and allow escape. (Noted in previous inspection)

The manager of the facility has been in contact with county maintenance and is waiting on them for further repairs.

Spoke with the staff about expanding documentation of medical records and animal conditions.
