Cont.

Item Number	Explanation of Inadequacy (circled items above) And Recommendation For Compliance	Date Corrections Must Be Completed
	30 day follow-up (10-23-08)	
	Items Addressed:	
	1- Treatment Room - The old water damaged cabinets have been removed and replaced with a free standing stainless steel sink. Tub in treatment room - all the damaged wood is now gone - area across the bottom has been reinforced with metal covered in cement and underneath open area closed off with Vinyl [redacted] latice panel. New cabinets have been installed also.	
	2 - Dog Runs - The rusted pipes on the outside runs have been replaced.	
	Items to be addressed:	
	1) Outside Storage Building - Door - Manager has had difficulty getting a carpenter to address the door problem. It is still holding but still needs attention. Did not consider this an inadequacy bad enough to warrant a disapproval today. Manager has agreed to email photos when work is finished on the door.	
	2) Inside Kennel runs - 5 doors are showing some rusted through areas on the pipes. Manager has already addressed the outside and the inside is scheduled to be addressed.	
	Suggest placing a thermometer in the isolation room.	
	Shelter is clean, odor free, no visible signs of illness noted today.
