Narrative Explanation

Performed an annual inspection.

The facility was clean and there was no odor.

Since the last inspection a wooden picnic table has been removed from the outside play yard and easily sanitizable chairs have been added. Wood on the shelter has been covered with composite decking that is impervious to moisture.

Inadequacy noted is:

0204- Surfaces impervious to moisture- Floors were sealed but the sealer is deteriorating in the enclosure areas and causing it to flake and holding debris. (noted in the last inspection)

Paperwork checked was adequate.

Medical logs are being documented properly.

Checked disposition records and animals are being kept for a minimum of 72hrs.

There were 3 kittens that appeared to have an eye issue that were in the kitten adoption room. After noting this they were moved to isolation. The kitten that appeared to have the worst issue, Lupine, has been treated twice before and is documented to have received previous treatment.

The company that was supposed to remove the epoxy flooring has not been in contact with the facility, the facility is currently in talks with another company to resolve the issue.

Keep up the good work of continuing to improve the facility husbandry and administratively.

There were no animals to be euthanized at the time of inspection.
