

Howdy!!

Did you know that if you took all of the horse farms in North Carolina and bunched them together, you'd get a farm as big as this square? That's 851,540 acres or about 1,332 square miles!

There are over 225,000 horses in our state representing all of the major breeds.

Horse projects are the leading special interest projects in the NC 4-H program.

We have well over 400 horse shows held in North Carolina every year and the State Fair Horse Show is one of the biggest in the country!
