Narrative Explanation

Did a final inspection of this facility today. All surfaces are impervious to moisture and in order. Records are in order. Food is appropriately stored. No inadequacies were noted at the time of inspection. No sign of illness/injury in the general population.

This facility opens to the public today and has a grand opening on June 26th, 2014.

Plans are in place to have all animals to the new facility by the end of the week. Plans for the previous facility include refurbishing for county usage.

Number for animals currently at this facility includes animals from both County facilities and the Humane Society at the new facility. All records have not been merged at this time. The Humane Society has submitted application for licensure but has not received their new license number at time. Both portions of the facility are in great working order at this time.
