NC

Narrative Explanation

Annual inspection performed today.

Items to correct:

.0202 Indoor facilities / ventilation - The k-9 quarantine and general population rooms have an in the wall mounted combination heat / ac unit. Both units need to have the filters and vents cleaned of grime and dust.

.0204 Primary enclosures / impervious to moisture - Once again the paint is chipped on the concrete floors. It was noted on the 7/15/13 follow up inspection that these same floors had been repainted. This has only been 7 months. Advise county to look at other options that will last longer. Each time the floors must be addressed, the shelter must close and time is lost in providing animal services. Fix the concrete floors.

.0204 Primary enclosures / sound repair - fix the chain link on the gate of #06.

Comments:

Remember to keep the feed room cleaned and organized on a regular basis.

Temperatures were 55* in the k-9 quarantine room. Make sure this heat unit is working properly.

There were no signs of untreated illness or injury noted.

Follow-up inspection in 30 days 4/28/14.

A copy of Senate Bill 626 and 626 memo have been left today with Bobbie Kennel -
