FOREWORD

The 2002 edition of the *North Carolina Pesticide Report* represents a revision of previous issues. By elaborating on the purpose of this report, by adding new material, and by better defining the substances listed, we attempted to reflect in a more meaningful manner, the information collected during the 2002 calendar year. We hope that more readers will be able to use it effectively.

This will acknowledge and express our appreciation to the following people who made significant contributions to the contents and preparation of this Pesticide Report:

Pesticide Section - Margaret D. Broome, Betty H. Griffin, Eleanor F. Lipscomb, Sharon L. Pulley and Laura L. Stover, *Processing Assistant III's*; Victoria Benhoff, Jan L. Culbreth, Amy D. Disbennett and Ann Vaughn, *Office Assistant IV's*; Jamie Frye, *Administrative Secretary III*; Michael V. Williams and Lorrie Gay, *Information Processing Technicians*; Flo S. Lamphier, *Administrative Officer I*; James W. Burnette, Jr., *Pesticide Administrator*; Sharron A. Stewart, *Deputy Pesticide Administrator*; John E. Hunter, III, *Regulatory Liaison*; L. Lee Davis, *Registration Manager*; Dr. Colleen M. Hudak, *Certification, Licensing & Outreach Manager*; J. Patrick Jones, *Field Operations Manager*; Dr. Henry F. Wade, *Environmental Quality Manager*; Robert M. Welker, *Quality Assurance Officer*; Kay G. Harris, *Worker Protection Specialist*; Peyam Barghassa, *Bilingual Pesticide Specialist*; Judith H. Card, Michael A. Mitchell, William G. Parham, III, and Carolyn M. Thompson, *Pesticide Specialists*; James H. Choate, *Certification/Licensing Specialist*; John B. Dalley and Dwight E. Seal, *District Managers*; James C. Bristow, Jr., Charles L. Clark, Benny C. Griffin, N. Patrick Farquhar, Gwen T. Minton, W. Howard Minton and James T. Perry, *Pesticide Inspector II's*; Thomas C. Bowman, Jr., W. Kenneth Crabtree, M. Timm Dazey, Jr., W. Barry Dunn, Forrest Sue Egelston-Moncada, Steven F. Gatton, J. Michael Jackson, Terry L. Leatherwood, R. Steve Taylor, D. Wayne Tyer, Paul H. Ward, III, and Kenneth E. Warren, *Pesticide Inspector I's*; **Food and Drug Protection Division** - E. Bruce Williams, *Director*; Dr. Joel M Padmore, *State Chemist*; Dr. Royden Saah, *Chief Microbiologist*; Martha Bray and Dawn Davis, *Microbiologists*; Ralph L. Denning, *Supervisor, Pesticide Laboratory*; John W. Duncan, R. Vern Park, Stefanie A. Raysich, Ronnie E. Rollins and Frankie G. Worsham, *Chemists*; Coy T. Bowling, *Processing Assistant III*; George Hernandez, *LAN Administrator*.

How to Use This Report

The N.C. Pesticide Board is mandated by the General Statutes of North Carolina (§ 143-437) to make annual reports to the Governor on matters involving pesticides. The *North Carolina Pesticide Report for 2002* fulfills this mandate. Considerable time and effort have gone into editing and organizing this 2002 edition which summarizes regulatory activities performed under the N.C. Pesticide Law of 1971. Every section has been updated, and new information has been added in order to make the *North Carolina Pesticide Report for 2002* a useful reference. In this document you will find the following:

Introduction

The Introduction describes the development of laws and regulations governing the sale and use of pesticides in North Carolina. It also refers to certain divisions in the North Carolina Department of Agriculture & Consumer Services that perform key roles in regulating and controlling the sale and use of pesticides in this State.

North Carolina Pesticide Law of 1971 and Adopted Regulations

This section presents a brief abstract of the North Carolina Pesticide Law of 1971. It also indicates where to obtain a complete copy of the Law and the pursuant Regulations adopted by the North Carolina Pesticide Board.

Pesticide Board and Pesticide Advisory Committee

This section presents a brief description of the duties and composition of the North Carolina Pesticide Board and the North Carolina Pesticide Advisory Committee. In addition, a brief summary of each North Carolina Pesticide Board meeting held during 2002 is given.

Pesticide Environmental Trust Fund

In this section, a summary of the Pesticide Environmental Trust Fund's financial transactions for 2002 is presented. Balances, receipts, expenditures, refunds, and cumulative (1993-2002) figures are given.

Pesticide Container Recycling and Disposal Assistance Programs

This section summarizes the amount of plastic pesticide containers recycled during 2002 and the amount of pesticides waste collected at both the designated disposal collection sites and permanent household hazardous waste collection sites across North Carolina during the same year.

Licensed Pesticide Dealers, 2002

This section is a directory of the names and counties of pesticide dealers licensed in 2002.

Licensed Pesticide Aerial Applicators, 2002

This section is a directory of the names and counties of aerial pesticide applicators licensed in 2002.

Licensed Pesticide Ground Applicators, 2002

This section is a directory of the names and counties of ground pesticide applicators licensed in 2002.

Licensed Pesticide Public Operators, 2002

This section is a directory of the names and counties of public operators licensed in 2002 to apply pesticides for municipal, county, state, and/or federal governments.

Licensed Pest Control Consultants, 2002

This section is a directory of the names and counties of pest control consultants licensed in 2002.

NOTE. Individually requested and tailored lists of registrants, dealers, applicators or consultants are available by contacting the Pesticide Section at (919) 733-3556. A nominal printing charge may apply.

Definitions Adopted

This section explains definitions that were adopted for reporting the analytical results of pesticides sampled by pesticide inspectors and analyzed by the Department's laboratories.

Table 1

Table 1 gives the analytical results of pesticides sampled and analyzed for their formulations. Company name and address are those listed on the product label when it was purchased in the marketplace.

Table 2

Table 2 presents the results of disinfectants tested for their label guarantee to kill various microorganisms. Here again, company name and address are those listed on the product label when it was purchased in the marketplace.

Table 3

Table 3 is an alphabetical listing of the names and addresses of manufacturers and/or distributors that were found to have unregistered or misbranded products in the marketplace during 2002.

Summary of Regulatory Activities Performed

This section presents a summary of the various regulatory activities performed by the Department under the North Carolina Pesticide Law of 1971. The following information is included: number of manufacturers who registered pesticides for sale; number of pesticide products registered; number of physical samples collected and examined; number of stop-sale, stop-use, or removal orders issued; the number of licenses and private applicator certificates issued; and the number of compliance inspections conducted.

Introduction

The term "Pesticide" covers a large number of materials and mixtures intended for destroying, controlling, or repelling pests such as insects, weeds, and other noxious plants, predatory animals and birds, soil-infesting pests such as nematodes, algae, snails, and bacteria. Other examples are disinfectants, antiseptics, and fungicides for use other than on living man or other animals, defoliant, various repellents, fly paper, and other adhesive products whose action goes beyond simple mechanics, moth proofers, wood preservatives other than common paints, mildew controls, and seed fumigants.

An adequate and readily available supply of many of these products is essential in the economical production of feed and fiber crops. The preservation of many products in storage and the control of domestic and industrial pests which affect both the health and welfare of human beings and animals are like-wise dependent on such materials.

While the development and distribution of various pesticides to serve the needs are important, provisions must be present to protect the public. During the years 1947 through 1971, it was the purpose of the economic poisons law (North Carolina Insecticide, Fungicide, and Rodenticide Act of 1947, G.S. 4A, Chapter 106) to protect the public from adulterated, misbranded, worthless, and dangerous products, and legitimate manufacturers from unscrupulous competition.

During the years 1953 through 1971, the aerial application of pesticides was regulated by the North Carolina Aerial Crop Dusting Law, G.S. 4B, Chapter 106. The Law and the regulations promulgated thereunder, in summary, required the registration and licensing of contractors and aviators who engaged in the custom application of pesticides by aircraft in North Carolina. The validity of a license was further restricted to the period of time that coverage by liability bond or insurance for damage by aircraft was in force.

During 1969, the North Carolina General Assembly through House Resolution 1392 directed the Legislative Research Commission to study the laws regulating pesticides in N.C. and report its findings and recommendations to the 1971 General Assembly. As a result of the findings and recommendations of the Commission, the North Carolina Pesticide Law of 1971 was adopted. The N.C. Pesticide Law of 1971 established the North Carolina Pesticide Board as the governing body for the programs of pesticide management and control set forth in the Law. Provisions for regulating the use, application (aerial and ground), sale, storage, disposal and registration of pesticides are set forth in the Law.

The Law provides for the adoption of a list of restricted use pesticides and requires the licensing of all pesticide dealers who sell restricted use pesticides directly to users. Pesticide applicators and consultants are also subject to licensing requirements. Private pesticide applicators may be required to be certified or recertified in order to purchase, use, and supervise use of restricted use pesticides in agricultural commodity production.

The Commissioner of Agriculture is responsible for administering and enforcing the Law and all rules and regulations adopted by the Board.

Each brand or grade of pesticide must be registered with the North Carolina Department of Agriculture & Consumer Services before it can be legally offered for sale in the State. A \$30.00 registration fee for each brand or grade must accompany each application for registration. In addition to the registration fee, an annual environmental assessment must be paid for each brand or grade to be registered in North Carolina. The assessment shall be \$50.00 if the applicant's gross sales of the pesticide in this state for the preceding 12 months for the period ending September 30th were more than \$5,000.00 and \$25.00 if gross sales were less than \$5,000.00. This assessment must accompany the \$30.00 registration fee in order for the registration to be complete.

A statewide inspection service will be maintained to investigate incidents involving pesticide misuse and to implement programs to enhance compliance to the Law and regulations. In addition to product registration and applicator licensing programs, the Pesticide Section of the Food and Drug Protection Division will implement programs as authorized by regulation pertaining to the quality of formulated pesticides, the storage, disposal, and use of pesticides. The Department will maintain analytical laboratories to conduct analysis of official samples obtained for regulatory purposes.

Brief of the North Carolina Pesticide Law of 1971

North Carolina Pesticide Board

Governing Body

Commissioner of Agriculture

**Administrative
and Enforcement**

North Carolina Pesticide Advisory Committee

**Assists the Board
and Commissioner in
an advisory capacity**

Any pesticide may be designated as a "Restricted Use Pesticide" upon the grounds that in the judgment of the Board it is so hazardous or injurious to persons, pollinating insects, animals, crops, wildlife, lands, or the environment that additional restrictions on its sale, purpose, use, or possession are required. Restricted Use Pesticides also include any pesticide required by the Environmental Protection Agency to bear the designation on its labeling "Restricted Use Pesticide." (Restricted Use Pesticides have been established by regulation.)

**Restricted Use
Pesticides**

The Board may require certification and recertification of private pesticide applicators and charge a fee of up to \$10.00. The current fee is established by regulation at \$6 for a three-year certification.

**Private Applicator
Certification
Requirement**

All pesticide dealers who sell restricted use pesticides must be licensed. Application for a pesticide dealer's license must be accompanied by a nonrefundable fee of \$30. All licenses shall expire on December 31 of the year for which they are issued. The license may be renewed annually upon application to the Department of Agriculture and Consumer Services, accompanied by a non-refundable fee of \$30 for each license. Each applicant must demonstrate upon written, or written and oral, examination his knowledge of pesticides, their usefulness and their hazards; his competence as a pesticide dealer; and his knowledge of the laws and regulations governing the use and sale of pesticides.

**Pesticide Dealer
Licensing
Requirement**

No person shall engage in the business of pesticide applicator within North Carolina unless he is licensed annually by the Board. Each license application shall be accompanied by a nonrefundable fee of \$30 for each applicator's license and an additional \$10 for each aircraft to be licensed. A pesticide applicator is defined as any person who owns or operates a pesticide application business or who provides, for compensation, a service that includes the application of pesticides upon the lands or properties of another; any public operator; any golf course operator; any seed treater; any person engaged in demonstration or research pest control; and any other person who applies pesticides for compensation and is not exempt from this definition. It does not include:

**Pesticide Applicator
Licensing
Requirement**

a. Any person who uses or supervises the use of a pesticide (i) only for the purpose of producing an agricultural commodity on property owned or rented by him or his employer, or (ii) only (if applied without compensation other than trading of personal services between producers of agricultural commodities) on the property of another person, or (iii) only for the purposes set forth in (i) and (ii) above.

b. Any person who applies pesticides for structural pest control, as defined in the North Carolina Structural Pest Control Law (G.S. Chapter 106, Article 4C.)

Each applicant must demonstrate upon written, or written and oral, examination his competence as a pesticide applicator or public operator. In addition, to be licensed as a pilot, a person must have 125 hours and one year's flying experience as a pilot in the field of aerial pesticide application.

No person shall perform services as a pest control consultant without first procuring from the Board a license. The application for a license shall be accompanied by an annual nonrefundable fee of \$30. A pest control consultant is defined as any person who, for a fee, offers or supplies technical advice, supervision, or aid, or recommends the use of specific pesticides for the purpose of controlling insects, plant diseases, weeds, and other pests, but does not include any person regulated by the North Carolina Structural Pest Control Act. Each applicant must demonstrate upon written, or written and oral, examination his competence as a pesticide consultant. An applicant for a pest control consultant license must possess a Ph.D., master's, or bachelor's degree in an agricultural or biological science from an accredited college or university with a minimum of 30 semester hours or 45 quarter hours of credit in subject areas pertinent to the category in which the applicant seeks to obtain a license. Emphasis of study must include insect, plant, bacterial, and fungal pests, as applicable to the category, and integrated pest management.

**Pest Control
Consultant
Licensing
Requirement**

No person shall handle, transport, store, display, or distribute pesticides in such a manner as to endanger man or his environment.

Handling, Storage, and Disposal of Pesticides

Every pesticide prior to being distributed, sold, or offered for sale within this State or delivered for transportation or transported in intrastate commerce or between points within this State through any point outside this State, shall be registered and such registration shall be renewed annually. Each manufacturer, distributor, or registrant of a pesticide shall supervise the activities of any employee or agent to prevent the making of deceptive or misleading statements about a pesticide. It shall be unlawful for any person to distribute, sell, or offer for sale any restricted use pesticide to any dealer who does not hold a valid N.C. Pesticide Dealer License.

Registration

A registration fee of \$30 for each brand or grade of pesticide is required. An additional \$200 delinquent registration penalty shall be assessed against the registrant for each brand or grade of pesticide marketed in North Carolina prior to registration.

Registration Fee and Delinquent Penalty

An annual Pesticide Environmental Trust Fund assessment fee is required for each brand or grade of pesticide registered. This fee is either \$25.00 or \$50.00, based on gross sales of the pesticide within the State for the previous year. The assessments provide funding for agromedicine efforts at East Carolina University, North Carolina State University, and North Carolina A&T University and for pesticide environmental programs administered by the N.C. Department of Agriculture & Consumer Services.

Pesticide Environmental Trust Fund Assessment

Registration is subject to refusal or cancellation for cause and upon hearing.

Refusal or Cancellation of Registration

Any brand or grade found to be deficient or excessive in active ingredients, misbranded, adulterated, or not registered is subject to "Stop Sale, Stop Use or Removal Orders."

"Stop Sale, Stop Use or Removal Orders"

The Pesticide Board may assess a civil penalty of not more than \$2,000 against any person who violates or directly causes a violation of any provision of this Article or any rule adopted pursuant to this Article. In determining the amount of any penalty, the Board may consider the degree and extent of harm caused by the violation and the cost of rectifying the damage caused by the violation.

Civil Penalties

Notwithstanding any other provision of this Law, the maximum penalty which may be assessed under this section against a "private pesticide applicator" is \$500 and such penalties may be assessed only for willful violations.

Other Penalties

Any person who shall be adjudged to have violated any provision of the Law, or any regulation of the Board adopted pursuant to this Law, shall be guilty of a Class 2 misdemeanor and for each violation shall be liable for a penalty of not less than \$100 or more than \$1,000 or shall be imprisoned for not more than 60 days, or both. In addition, if any person continues to violate or further violates any provision of this Article after written notice from the Board, the court may determine that each day during which the violation continued or is repeated constitutes a separate violation subject to the foregoing penalties.

NOTE: Copies of the North Carolina Pesticide Law of 1971, as amended through 1998, may be obtained upon request to the Pesticide Section, North Carolina Department of Agriculture & Consumer Services, P.O. Box 27647, Raleigh, North Carolina 27611. Copies of the Regulations adopted by the North Carolina Pesticide Board may be requested from the same source. Both documents are also available on the Internet at www.ncagr.com/fooddrug/pesticid

North Carolina Pesticide Board

The North Carolina Pesticide Board is a seven-member, governor appointed Board charged with the duty of governing pesticide management and control as set forth in the North Carolina Pesticide Law of 1971. The members represent different sectors of the regulated public.

The Board adopts rules and regulations and makes policies for the program outlined in the North Carolina Pesticide Law of 1971. Board members serve staggered four-year terms. Appointments to fill vacancies in the Board are of individuals having the same credentials as the predecessor.

MEMBERS OF THE NORTH CAROLINA PESTICIDE BOARD, 2002

(N.C. General Statute §143-436)

One member each representing the North Carolina Department of Agriculture and Consumer Services; the North Carolina Department of Environment and Natural Resources; and the State Health Director or his designee. The persons so selected may be either members of a policy board or departmental officials or employees.

Dr. Robert E. Cook, Raleigh, NC
Representing the N.C. Department of Environment and Natural Resources

Mr. Carl E. Falco, Raleigh, NC
Representing the N.C. Department of Agriculture and Consumer Services

Dr. Ricky L. Langley, Raleigh, NC
Representing the State Health Director

A representative of the agricultural chemical industry.

Dr. Robert Earl Ogle, Raleigh, NC

A person directly engaged in agricultural production.

* **Mr. M. Scott Whitford**, Grantsboro, NC

Two at-large members, from other fields of endeavor, one of whom shall be a nongovernmental conservationist.

** **Mr. Charles L. Keels**, Cary, NC

Dr. W. Benson Kirkman, Raleigh, NC (nongovernmental conservationist)

* Chairman

** Vice Chairman

Secretary, James W. Burnette, Jr.

North Carolina Pesticide Board Meetings

January 15, 2002

The Board approved the agreement between North Carolina and Virginia for reciprocal certification of aerial applicators in the public health licensing category during emergency situations.

Ms. Diane Stevens, Assistant Attorney General, presented settlement agreements for the Board's consideration.

Comments were expressed by Dr. Wayne Buhler, North Carolina State University (NCSU) Pesticide Education Specialist, regarding private pesticide applicators who are non-readers. Dr. Buhler asked if the Board was going to consider making any provisions for accommodating non-readers with the written examination requirement. Mr. Whitford, Chairman, stated that the Board had voted to require a written examination reiterating the opinion of the Board that applicants for certification need to be able to read. The chair recognized Dr. Colleen Hudak, Pesticide Section Licensing, Certification and Outreach Manager. Dr. Hudak stated that the national Certification Training Advisory Group (CTAG) has recommended to the EPA to abolish the non-reader clause in Section 11 of FIFRA.

March 18, 2002

Dr. Alan York, Chairman of the Pesticide Advisory Committee, presented proposed changes to the current aerial regulations governing aerial applications. The Board encouraged concerned parties to submit written comments for the official record at any time. Public comment would be heard at the scheduled public meetings.

A 2000 Petition for Rulemaking, submitted by Mr. Elbie Powers of Sampson County, was considered by the Board. Mr. Powers' petition proposed a change in the aerial application regulations to allow application of pesticides within 100 feet of a residence to treat fruit and nut trees and for mosquito control in certain situations. The Board voted to table the proposal because of the proposed aerial regulations.

The Pesticide Board approved a Pesticide Environmental Trust Fund (PETF) proposal to design inexpensive pesticide storage, mixing, and loading facility for small farmers. Mr. Jerry Moody, Avery County Agricultural Extension Agent presented the proposal, which was jointly submitted by Avery, Watagua and Mitchell County Cooperative Extension Service. The Board awarded a \$15,040.00 grant for this project.

Dr. Greg Cope, NCSU Toxicologist, presented a PETF proposal to develop two bilingual educational Brochures for workers and producers of tomatoes and grapes. Dr. Cope stated that the new cropsheets would bring the total to eight in the Pesticides and Human Health series produced through a grant from the PETF. The Board approved Dr. Cope's grant request for \$24,358.00 for this project.

The Secretary to the Board stated that the Pesticide Dealer Restricted Use Pesticide Recordkeeping Rules had been adopted as emergency regulations at the Board's October 21, 2001 meeting and that they have gone through the rule making process for permanence. Since only one set of comments had been received and no request for public hearings had been made, the Board could take its final action. The Board voted to adopt the proposals as final rules.

Ms. Diane Stevens, Assistant Attorney General, presented settlement agreements for the Board's consideration and approval.

April 18, 2002

Mr. Ron Townley from the Land-of-Sky Regional Council presented the final report on the PETF project entitled Award Winning Regional Pesticide/ Household Hazardous Waste Collection Program: Your Grant \$\$ Efficiently At Work For Years To Come.

Chairman Whitford introduced the new Board member, Ms. Robin Smith, who is the Assistant Secretary for Planning and Policy, NC Department of Environment and Natural Resources.

Dr. Ray Long, Crop Science Department, NCSU, presented a proposal for funding through the PETF for a project entitled Precision Application of Reduced Volumes of Agrochemicals. The Board approved Dr. Long's grant request for \$23,277.00.

Dr. Colleen Hudak, NCDA&CS Certification, Licensing and Outreach Manager, presented a request for \$86,125.00 from the PETF to support the Pesticide Container Recycling Program for 2002.

The first place John L. Smith Pesticide Container Recycling Award for 2001 was presented to Pasquotank County. Mr. Mike Ethridge, Pasquotank Solid Waste Coordinator, Ms. Marie Jenkins, Recycling Coordinator for Pasquotank County, accepted the \$2,000.00 award on behalf of their county. Alleghany County won second place honors. Mr. Bob Edwards of the Alleghany Cooperative Extension Service was on hand to accept the \$1,000.00 second place award.

Ms. Diane Stevens, Assistant Attorney General, presented settlement agreements for the Board's consideration and approval.

May 14, 2002

Mr. Jim Burnette, Jr., Pesticide Administrator and Secretary to the Board, recommended that the Board consider reinitiating the Aerial Rule-Making Process.

Dr. Colleen Hudak presented the PETF Fiscal Management Report for 2001. The work plan for 2002 and an estimate of available funds for 2002 were also presented.

Dr. Gary Robinson, NCSU Department of Biological and Agricultural Engineering, presented the final report on the PETF project Technology Resources for Pesticide Application Training.

Ms. Julia Storm, NCSU Agromedicine Information Specialist, Ms. Tara Carr, Americorps VISTA Volunteer, and Ms. Laura Mullins, Community Educator with Farmworker Legal Services of NC, presented a proposal for funding through the PETF. The project, Training Health Care Providers in North Carolina on Pesticide Related Illness and Health Issues, is designed to increase the awareness and knowledge of health care providers in the area of pesticide related illnesses and to improve the health care of North Carolinians involved in agriculture. The Board approved the proposal request for \$10,799.18.

Dr. Charles Apperson, NCSU Department of Entomology, presented a proposal for funding by the PETF entitled Field-Testing of a Lethal Oviposition Trap Against Suburban Populations of the Asian Tiger Mosquito. Dr. Apperson stated that because of the unique life cycle of this particular mosquito species, conventional spray programs are not overly effective. The Board voted to grant the funds (\$23,953.00) for this project.

Ms. Diane Stevens, Assistant Attorney General, presented settlement agreements for the Board's consideration and approval.

August 13, 2002

The Board heard recommendations from the Pesticide Advisory Committee (PAC) on the proposed revisions of the aerial pesticide application rules. Discussion included clarification of the health based residue levels as they relate to the well being and health of children and others. The Board voted to accept the recommendations provided all references to specific residue levels be changed to 6 parts per million (ppm).

The Board considered appointments and re-appointments to the PAC and accepted a recommendation from the Secretary of Transportation for Mr. Don Lee, NCDOT, to represent the Board of Transportation on the Committee. The Board requested the Pesticide Section staff to solicit nominations from the appropriate groups for candidates to fill the practicing farmer position on this committee and to poll the remaining members to determine their willingness and ability to continue to serve the PAC.

Dr. Thomas Arcury, Wake Forest University School of Medicine, presented his final report on the PETF sponsored farmworker education video, *El Terror Invisible Pesticide Safety in North Carolina*. This video has been approved by The Environmental Protection Agency as a training material for the Worker Protection Standard, a regulation of the NC Pesticide Law of 1971 and the Code of Federal Regulations.

Mr. Jerry Moody, Avery County Cooperative Extension Service, presented the final report on the PETF project Development of a Closed System Applicator for Di-Syston Application in Christmas Tree Production.

Assistant Attorney General Tom Meacham presented settlement agreements for the Board's consideration.

Dr. Benson Kirkman (Board member) informed the Board of his invitation to serve on the National Drinking Water Advisory Council's Work Group on the Contaminant Candidate List Process.

September 10, 2002

The Board heard a presentation outlining the structure of the Private Applicator Recertification Program for 2003-2005. Mr. James Burnette, Secretary to the Board, presented the information on behalf of Dr. Wayne Buhler, NCSU Pesticide Education Specialist.

Dr. Darrell Sumner, Wake Forest University School of Medicine, presented the final report on the PETF project Preventing Pediatric Poisonings in NC. Dr. Sumner introduced Dr. Anna Rouse, Assistant Director of the Carolinas Poison Control Center, who stated the PETF funds provided for this project enabled the Carolinas Poison Control Center to develop an expanded outreach program and fill an information gap in their data. Dr. Sumner's request to use the remaining funds from the PETF project for promotional materials was granted.

Dr. Katherine M. Shea, MD, MPH, Duke University Medical Center and Fellow of the American Academy of Pediatrics stated that she was appearing before the Board as a private citizen concerned about the proposed revisions to the aerial application rules. Her presentation supported the reduction of any potential pesticide exposure among children.

The Board approved Section 18 applications for Specific Exemption from Registration for the emergency use of the pesticides Falcon Herbicide (mesosulfuron-methyl) and Axiom Herbicide (flufenacet + metribuzin) to control Italian ryegrass in winter wheat.

The Board considered nominations to the Pesticide Advisory Committee (PAC). The Board decided to extend the time for receiving nominations for the practicing farmer.

Dr. Clyde E. Sorenson was appointed to serve on the PAC as the representative from NCSU College of Agriculture and Life Science in the area of wildlife or biology.

On the matter of the rule making proceedings for the proposed aerial regulations, the Secretary to the Board explained that the Notice of Text will appear in the October 1, 2002 NC Register and that in addition to the official public hearing scheduled for the November 12, 2002 Board meeting, two courtesy public hearings in October will be held in Fletcher, NC and Greenville, NC.

November 12, 2002

Mr. Dan McConnell was appointed by the Board to serve on the Pesticide Advisory Committee as the practicing farmer.

Dr. Ernest Hodgson, NCSU environmental and molecular toxicology presented his final report on the PETF sponsored project Human Metabolism of Pesticides. He also presented information to the Board regarding environmental pesticide residue exposures and risk considerations.

Assistant Attorney General Thomas Meacham presented settlement agreements to the Board for consideration and approval.

The North Carolina Pesticide Advisory Committee

The North Carolina Pesticide Law of 1971 establishes a twenty-member Pesticide Advisory Committee to advise the N.C. Pesticide Board on technical questions and on the development of rules and regulations. Members of the Advisory Committee represent different sectors of the regulated public. Members of the Committee serve at the pleasure of the Board.

MEMBERS OF THE N.C. PESTICIDE ADVISORY COMMITTEE, 2002

(N.C. General Statute §143-439)

Three practicing farmers

****Mr. Dan McConnell**, Hendersonville, NC

****Mr. Marshall W. Grant**, Garysburg, NC

****Mr. Darryl K. Corriher**, China Grove, NC

One conservationist (at large)

****Mr. John Paul Lilly**, Plymouth, NC

One ecologist (at large)

****Dr. Thomas R. Wentworth**, Department of Botany, N.C. State University, Raleigh, NC

One representative of the pesticide industry

****Mr. Rolf Jesinger**, Apex, NC

One representative of agri-business (at large)

****Mr. Charles G. Rock**, Greensboro, NC

One local health director

****Ms. Jenny P. Lassiter**, Pamlico County Health Department, Bayboro, NC

Three members of the North Carolina State University (NCSU) College of Agriculture & Life Sciences, at least one of which shall be from the area of wildlife or biology

***Dr. Clyde E. Sorenson**, Associate Professor, Dept. of Entomology, N.C. State University, Raleigh, NC

***Dr. P. Sterling Southern**, Department of Entomology, N.C. State University, Raleigh, NC

***Dr. Alan C. York**, Department of Crop Science, N.C. State University, Raleigh, NC

One member representing the North Carolina Department of Agriculture & Consumer Services (NCDA&CS); and one member representing the North Carolina Department of Environment & Natural Resources (NCDENR); the State Health Director or his designee

***Mr. James W. Burnette, Jr.**, N.C. Department of Agriculture & Consumer Services, Raleigh, NC

***Mr. Arthur Mouberry**, N.C. Department of Environment & Natural Resources, Raleigh, NC

***Mr. Ronald J. Howell**, N.C. Department of Health & Human Services, Raleigh, NC

One representative of a public utility or railroad company which uses pesticides

****Mr. Joseph A. Gregory**, Progress Energy, Raleigh, NC

One representative of the Board of Transportation

***Mr. Don Lee**, N.C. Department of Transportation, Raleigh, NC

One member of the North Carolina Agricultural Aviation Association

****Mr. M. Boyd Respess**, Dreamstreet Aviation, Inc., Washington, NC

One member of the general public (at large)

****Ms. Wanda P. Winslow**, Asheville, NC

One member actively engaged in forest pest management

****Mr. Coleman A. Doggett**, Cary, NC

One member representing the Division of Waste Management of the North Carolina Department of Environment and Natural Resources

***Mr. William R. "Bill" Hocutt**, N.C. Department of Environment & Natural Resources, Raleigh, NC

*Agency appointments

**Appointed by Board

Chairman, Dr. Alan C. York
Vice-Chairman, Marshall W. Grant
Secretary, James W. Burnette, Jr.

PESTICIDE ENVIRONMENTAL TRUST FUND

Throughout 2002, the North Carolina Department of Agriculture & Consumer Services (NCDA&CS) continued to fulfill the mandate of N.C. General Statutes §143-442 and §143-468 which specify the collection and disposition of environmental assessment fees that pesticide manufacturers and distributors pay when they register pesticide products for sale in North Carolina.

RECEIPTS for 2002

NCDA&CS collected \$335,525.00 in environmental assessment fees from the registration of approximately 12,372 pesticide brands during 2002. Fifty-four percent of the receipts were for products with reported annual North Carolina gross sales of less than \$5,000, and forty-six percent of the receipts were for products with annual sales of \$5,000 or more. (The annual environmental assessment/product is \$25 or \$50 per brand, respectively.)

BALANCES for 2002

Initial receipts from pesticide registrants paying PETF assessments are deposited into the NCDA&CS Pesticide Environment Assessment Fund (PEAF, Account No. 6136). Transfers are made from Account No. 6136 according to North Carolina G.S. § 143-468(b) as follows: 25% to agromedicine and 75% to the Pesticide Environmental Trust Fund (PETF, Account No. 6137), the account which is used by NCDA&CS to sponsor the various pesticide environmental programs summarized in this report.

As of December 31, 2002, there was a balance of \$162,330.00 in Account No. 6136 and a balance of \$270,117.07 in Account No. 6137. The total amount in both accounts as of December 31, 2001 was \$432,447.07.

EXPENDITURES FOR 2002

During 2002, NCDA&CS expended a total of \$281,254.29 from Account Nos. 6136 and 6137.

As specified in North Carolina G.S. § 143-468(b), PETF funds were distributed to North Carolina State University (NCSU), NC A&T State University and East Carolina University for operational expenses associated with administering and implementing a statewide agromedicine program; each university received 2.5% of the total PETF receipts collected during the calendar year. Twenty-percent of the total PETF receipts was used to support the agromedicine information specialist position in NCSU's Environmental & Molecular Toxicology Department. The aggregate amount of PETF funds spent on agromedicine during 2002 was \$110,510.14.

The remaining \$170,744.15 was spent on pesticide container recycling and six environmental projects:

- Eight counties (Blacklands Regional, Brunswick, Currituck, Granville, PCG Solid Waste Management, Pitt, Yadkin, and Wake) received a total of \$46,478.65 from the PETF to support local recycling of plastic pesticide containers during 2002. In addition, \$6,170.27 was spent on promotional materials for the state's pesticide container recycling program. The total amount spent on the state's pesticide container recycling program for 2002 was \$55,736.97.
- \$24,358.00 for Pesticides & Human Health – Dr. Greg Cope, NC State University
- \$15,040.00 for Avery County Pesticide Storage Facility – Jerry Moody, Avery County Cooperative Extension Service
- \$34,056.18 for Precision Application of Reduced Volumes of Chemicals – Dr. Ray Long, NC State University
- \$10,779.18 for Training Health Care Providers on Pesticide Related Illness and Health Issues – Dr. Susan Gustke, Agromedicine Institute & East Carolina University
- \$23,953.00 for Field Training of a Lethal Oviposition Trap Against Suburban Populations of Aedes Albopictus – Dr. Charles Apperson, NC State University
- \$17,600.00 for Using AFOP Trainers in Primary Health Care Facilities – Elizabeth Freeman Lambar, NC Department of Health & Human Services

REFUNDS FOR 2002

Refunds in the totaling \$79,534.18 were received during 2002 as follows:

- \$924.12 – from Orange County for balance of recycling grant
- \$73,777.18 – from Environmental Intervention Project for Small Scale Farmers – Drs. Daniel Lyons and Mohammed Ibrahim, NC A&T State University
- \$539.10 – from Avery County for the balance of recycling grant

- \$2,258.05 – from Harnett County for balance of recycling grant
- \$2,035.73 – from Technology Resources for Pesticide Application Training- – Dr. Gary Roberson, NC State University

CUMULATIVE PETF FIGURES (1993-2002)

As of December 31, 2002, a total of \$3,606,000.00 in receipts has been collected since the inception of the PETF.

Since 1993, PETF has provided a total of \$895,527.06 for support of agromedicine in North Carolina.

Expenditures for pesticide environmental programs between 1995 and 2002 have totaled \$2,407,417.74.

Plastic Pesticide Container Recycling Program

In 2002, \$46,478.65 in Pesticide Environmental Trust Fund (PETF) money was awarded to eight counties (Brunswick, Currituck, Granville, Pitt, Wake, and Yadkin and two regional programs; Beaufort, Hyde & Washington counties; Perquimans, Chowan, and Gates counties) to expand already existing recycling programs. USAg Recycling, Inc., which is the Agricultural Container Recycling Council (ACRC) approved recycler in North Carolina, reported that more than 277,193 pounds of plastic pesticide containers were recycled for the calendar year (2002), making North Carolina one of the leading states in pesticide container recycling. North Carolina ranked 6th in pounds of containers recycled in the 25 state region serviced by U.S. Ag. Recycling. North Carolina's rejection rate for improperly rinsed containers was only 2.79%. Seventy-eight counties have recycling programs.

During the fall of 2002, Pesticide Inspector II's visited recycling sites across the state to check on the cleanliness of pesticide containers being stored for recycling and to verify how previously awarded PETF grant money had been spent. Annual county reports were requested from all participating counties in December 2002. A financial audit of all county-awarded PETF recycling grants was also performed. Refunds were received from Avery County for \$539.10 for the balance of its 1995 PETF grant, Harnett County for \$2,258.05 for the balance of its 1997 grant, and Orange County for \$924.12 for the balance of its 1996 grant. Orange County's plastic pesticide container recycling program is now inactive.

During 2002, the Pesticide Section distributed a variety of items (flyswatters, neon pencils, stickup calendars, mini mouse pads, key-chain flash lights and 2-quart calibration cups) to promote the state's recycling of plastic pesticide containers. These items were also shared with the local recycling programs across the state.

The winner of the 2002 John L. Smith Pesticide Container Recycling Award of \$2,000.00 and a plaque for the outstanding recycling efforts was presented to the Beaufort County Cooperative Extension Service. During 2002, the Beaufort County collected and estimated 11,566 pounds of plastic pesticide containers at six pesticide dealership locations.

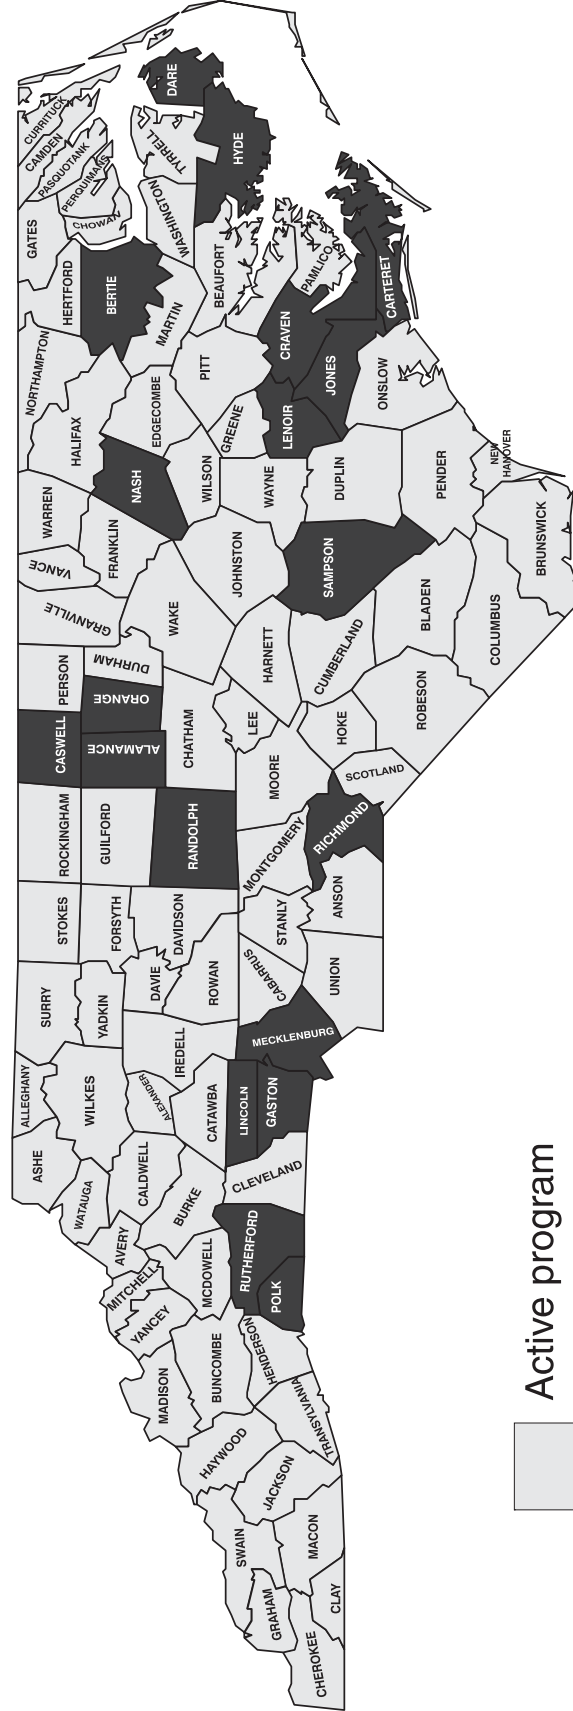

Pesticide Disposal Assistance Program

In 1976, the North Carolina Pesticide Board adopted regulations governing the disposal of pesticides. These regulations make it illegal in North Carolina to dispose of any hazardous waste, including pesticides, in sanitary landfills. In 1980, the North Carolina Department of Agriculture & Consumer Services created the Pesticide Disposal Assistance Program to provide the public a legal, free-of-charge, environmentally acceptable mechanism to dispose of unwanted or unusable pesticides. The Pesticide Disposal Program is contained within the Food and Drug Protection Division, but is not a regulatory part of the Pesticide Section.

The Pesticide Disposal Assistance Program disposes of pesticides collected at designated single day disposal collection sites and at permanent household hazardous waste collection sites across the North Carolina. In 2002, the Pesticide Disposal Assistance Program supervised the collection and disposal of 148,756 pounds of pesticide waste. A total of 35 single day disposal events were organized by NCDA&CS during 2002. NCDA&CS also assisted 12 counties in disposal of pesticides collected at permanent household hazardous waste (HHW) sites. A participant must notify the Pesticide Disposal Assistance Program prior to taking unwanted pesticides to a HHW site.

Status of County Pesticide Recycling Programs

DEFINITIONS ADOPTED

Table 1 lists the analytical results of formulation samples based on the following:

“PASSED” - signifies that all active ingredients were found to be present at acceptable levels based on the label guarantee.

“FAILED DUE TO DEFICIENT ACTIVE INGREDIENT” – signifies that one or more active ingredients fell significantly below the guarantee. Such products are placed under “Stop Sale Order” and are removed from the market place.

“FAILED DUE TO EXCESSIVE ACTIVE INGREDIENT” - indicates a significant excess of one or more active ingredients. Since such formulations could be harmful to the user and/or result in excessive residues, these products are placed under “Stop Sale Orders” and are removed from the market place.

Table 2 lists the analytical results of microbiological samples based on the following:

“PASSED” - indicates that the product was effective in killing the specific microorganisms guaranteed by the product label.

“FAILED” - indicates that the product was ineffective in killing the specific microorganisms guaranteed by the product label or that bacterial contamination of the product was found.

Table 3 lists manufacturers that had products placed under “Stop Sale Orders” due to the following:

“UNREGISTERED” - signifies that the product was not registered at the time it was found by a pesticide inspector in the marketplace. Any such product is required to be registered prior to release from a “Stop Sale Order.” A delinquent registration penalty is also assessed against the manufacturer.

“MISBRANDED” – indicates that the labeling of a pesticide product failed to conform to federal and/or state requirements.

**Summary of 2002
Regulatory Activities Performed
Under the N. C. Pesticide Law of 1971**

PESTICIDE REGISTRATIONS

Total Number of Registrants	1,210
Registrants from North Carolina	119
Pesticide Products Registered	12,372
Section 24(c) Registrations	7
Section 18 Exemptions Granted	5

COMPLIANCE MONITORING

Inspections	13,645
Physical Samples Submitted	2,263
Formulation	1,090
Disinfectants	381
Investigation	763
Domestic Wells	62
Analytical Determinations Made	9,695
Product Registration Checks	10,133

REGULATORY ACTIONS

Stop-Sale, Stop Use, Removal Orders	410
License or Certification Suspensions	0
License Revocations	0
Civil Penalties	24
Delinquent Registration Penalties	102

LICENSES ISSUED

Pesticide Dealer Licenses	739
Ground Pesticide Applicator Licenses	8,892
Aerial Pesticide Applicator Licenses	188
Public Operator Licenses	3,911
Pest Control Consultant Licenses	111
Total Pesticide Licenses	13,841

CERTIFIED APPLICATORS

Private Pesticide (Active)Applicators	23,530
