FOREWORD

This will acknowledge and express our appreciation to the following people who made significant contributions to the contents and preparation of this Pesticide Report: Structural Pest Control & Pesticides Division / Pesticide Section – James W. Burnette, Jr., Director; Betty H. Griffin, Effie Carroll, and Faith Lane, Processing Assistant III's; Margaret D. Broome, and Karen Hunt, Office Assistant IV's; Stacey R. Hicks and Laura L. Stover, Processing Assistant IV's; Jamie Frye, Administrative Secretary II; Michael V. Williams and Jan L. Culbreth, Information Processing Technicians; Florence S. Lamphier and Shannon Joyner, Administrative Officer I's; J. Patrick Jones, Deputy Pesticide Administrator; L. Lee Davis, Registration Manager; Kay G. Harris, Certification, Licensing & Outreach Manager; Dr. Henry F. Wade, Environmental Quality Manager; Derrick Bell, Pesticide Disposal Assistance Program Manager; Sergio Morales-Monroy, Bilingual Pesticide Specialist; Michael A. Mitchell, Pesticide Environmental Investigative Specialist; Jennifer Almond, Pesticide Operations Specialist; Jagathi Kamalakanthan, and Guido Hommelsheim, Pesticide Specialists; Renee Woody, and J. Cam McDonald Certification Specialists; Connie Hearne, Administrative Officer I; John B. Dalley and Dwight E. Seal, District Managers; James C. Bristow, Jr., Douglas Bullard, Charles L. Clark, Steven F. Gatton, Benny C. Griffin, N. Patrick Farquahar, Gwen T. Minton, Forrest Sue Egelston-Moncada, and Paul H. Ward, III, Pesticide Inspector II's; Thomas C. Bowman, Jr., W. Kenneth Crabtree, M. Timm Dazey, Jr., W. Barry Dunn, Robert S. Hamilton, J. Michael Jackson, Jimmy S. Merritt, Randy Oliver, Travis Snodgrass, Phillip Sykes, R. Steve Taylor, D. Wayne Tyer, and Gwen Van Duyn, Pesticide Inspector I's; Food and Drug Protection Division – Joseph W. Reardon, Director; Dr. Roger L. McDaniel, State Chemist; Dr. W. Mark Cosby, Chief Microbiologist; Dawn Davis and Vaishali M. Hingoo, Microbiologists; Ronald R. Willett, Pesticide Laboratory Supervisor; Frankie G. Worsham, Chemist II; R. Vern Park, and Ronnie E. Rollins, Chemist I's; Sherry Dixon, LAN Administrator.

How to Use This Report

The N.C. Pesticide Board is mandated by the General Statutes of North Carolina (§ 143-437) to make annual reports to the Governor on matters involving pesticides. The *North Carolina Pesticide Report for 2007* fulfills this mandate. Considerable time and effort have gone into editing and organizing this 2007 edition which summarizes regulatory activities performed under the N.C. Pesticide Law of 1971. Every section has been updated, and new information has been added in order to make the *North Carolina Pesticide Report for 2007* a useful reference. In this document you will find the following:

Introduction

The Introduction describes the development of laws and regulations governing the sale and use of pesticides in North Carolina. It also refers to certain divisions in the North Carolina Department of Agriculture & Consumer Services that perform key roles in regulating and controlling the sale and use of pesticides in this State.

North Carolina Pesticide Law of 1971 and Adopted Regulations

This section presents a brief abstract of the North Carolina Pesticide Law of 1971. It also indicates where to obtain a complete copy of the Law and the pursuant Regulations adopted by the North Carolina Pesticide Board.

Pesticide Board and Pesticide Advisory Committee

This section presents a brief description of the duties and composition of the North Carolina Pesticide Board and the North Carolina Pesticide Advisory Committee. In addition, a brief summary of each North Carolina Pesticide Board meeting held during 2007 is given.

Pesticide Environmental Trust Fund

In this section, a summary of the Pesticide Environmental Trust Fund's financial transactions for 2007 is presented. Balances, receipts, expenditures, refunds, cumulative (1993-2007) figures and project summaries are given.

Pesticide Container Recycling and Disposal Assistance Programs

This section summarizes the amount of plastic pesticide containers recycled during 2007 and the amount of pesticides waste collected at both the designated disposal collection sites and permanent household hazardous waste collection sites across North Carolina during the same year.

Licensed Pesticide Dealers, 2007

This section is a directory of the names and counties of pesticide dealers licensed in 2007.

Licensed Pesticide Aerial Applicators, 2007

This section is a directory of the names and counties of aerial pesticide applicators licensed in 2007.

Licensed Pesticide Ground Applicators, 2007

This section is a directory of the names and counties of ground pesticide applicators licensed in 2007.

Licensed Pesticide Public Operators, 2007

This section is a directory of the names and counties of public operators licensed in 2007 to apply pesticides for municipal, county, state, and/or federal governments.

Licensed Pest Control Consultants, 2007

This section is a directory of the names and counties of pest control consultants licensed in 2007.

NOTE. Individually requested and tailored lists of registrants, dealers, applicators or consultants are available by contacting the Pesticide Section at (919) 733-3556. A nominal printing charge may apply.

Definitions Adopted

This section explains definitions that were adopted for reporting the analytical results of pesticides sampled by pesticide inspectors and analyzed by the Department's laboratories.

Table I

Table I gives the analytical results of pesticides sampled and analyzed for their formulations. Company name and address are those listed on the product label when it was purchased in the marketplace.

Table II

Table II presents the results of disinfectants tested for their label guarantee to kill various microorganisms. Here again, company name and address are those listed on the product label when it was purchased in the marketplace.

Table III

Table III is an alphabetical listing of the names and addresses of manufacturers and/or distributors that were found to have unregistered or misbranded products in the marketplace during 2007.

Summary of Regulatory Activities Performed

This section presents a summary of the various regulatory activities performed by the Department under the North Carolina Pesticide Law of 1971. The following information is included: number of manufacturers who registered pesticides for sale; number of pesticide products registered; number of physical samples collected and examined; number of stop-sale, stop-use, or removal orders issued; the number of licenses and private applicator certificates issued; and the number of compliance inspections conducted.

Introduction

The term "Pesticide" covers a large number of materials and mixtures intended for destroying, controlling, or repelling pests such as insects, weeds, and other noxious plants, predatory animals and birds, soil-infesting pests such as nematodes, algae, snails, and bacteria. Other examples are disinfectants, antiseptics, and fungicides for use other than on living man or other animals, defoliants, various repellents, fly paper, and other adhesive products whose action goes beyond simple mechanics, moth proofers, wood preservatives other than common paints, mildew controls, and seed fumigants.

An adequate and readily available supply of many of these products is essential in the economical production of feed and fiber crops. The preservation of many products in storage and the control of domestic and industrial pests which affect both the health and welfare of human beings and animals are like-wise dependent on such materials.

While the development and distribution of various pesticides to serve the needs are important, provisions must be present to protect the public. During the years 1947 through 1971, it was the purpose of the economic poisons law (North Carolina Insecticide, Fungicide, and Rodenticide Act of 1947, G.S. 4A, Chapter 106) to protect the public from adulterated, misbranded, worthless, and dangerous products, and legitimate manufacturers from unscrupulous competition.

During the years 1953 through 1971, the aerial application of pesticides was regulated by the North Carolina Aerial Crop Dusting Law, G.S. 4B, Chapter 106. The Law and the regulations promulgated thereunder, in summary, required the registration and licensing of contractors and aviators who engaged in the custom application of pesticides by aircraft in North Carolina. The validity of a license was further restricted to the period of time that coverage by liability bond or insurance for damage by aircraft was in force.

During 1969, the North Carolina General Assembly through House Resolution 1392 directed the Legislative Research Commission to study the laws regulating pesticides in N.C. and report its findings and recommendations to the 1971 General Assembly. As a result of the findings and recommendations of the Commission, the North Carolina Pesticide Law of 1971 was adopted. The N.C. Pesticide Law of 1971 established the North Carolina Pesticide Board as the governing body for the programs of pesticide management and control set forth in the Law. Provisions for regulating the use, application (aerial and ground), sale, storage, disposal and registration of pesticides are set forth in the Law.

The Law provides for the adoption of a list of restricted use pesticides and requires the licensing of all pesticide dealers who sell restricted use pesticides directly to users. Pesticide applicators and consultants are also subject to licensing requirements. Private pesticide applicators may be required to be certified or recertified in order to purchase, use, and supervise use of restricted use pesticides in agricultural commodity production.

The Commissioner of Agriculture is responsible for administering and enforcing the Law and all rules and regulations adopted by the Board.

Each brand or grade of pesticide must be registered with the North Carolina Department of Agriculture & Consumer Services before it can be legally offered for sale in the State. A \$50.00 registration fee for each brand or grade must accompany each application for registration. In addition to the registration fee, an annual environmental assessment must be paid for each brand or grade to be registered in North Carolina. The assessment shall be \$50.00 if the applicant's gross sales of the pesticide in this state for the preceding 12 months for the period ending September 30th were more than \$5,000.00 and \$25.00 if gross sales were less than \$5,000.00. This assessment must accompany the \$50.00 registration fee in order for the registration to be complete.

A statewide inspection service will be maintained to investigate incidents involving pesticide misuse and to implement programs to enhance compliance to the Law and regulations. In addition to product registration and applicator licensing programs, the Pesticide Section of the Structural Pest Control and Pesticides Division will implement programs as authorized by regulation pertaining to the quality of formulated pesticides, the storage, disposal, and use of pesticides. The Department will maintain analytical laboratories to conduct analysis of official samples obtained for regulatory purposes.

Brief of the North Carolina Pesticide Law of 1971

North Carolina Pesticide Board

Governing Body

Commissioner of Agriculture

Administrative and Enforcement

North Carolina Pesticide Advisory Committee

Assists the Board and Commissioner in an advisory capacity

Any pesticide may be designated as a “Restricted Use Pesticide” upon the grounds that in the judgment of the Board it is so hazardous or injurious to persons, pollinating insects, animals, crops, wildlife, lands, or the environment that additional restrictions on its sale, purpose, use, or possession are required. Restricted Use Pesticides also include any pesticide required by the Environmental Protection Agency to bear the designation on its labeling “Restricted Use Pesticide.” (Restricted Use Pesticides have been established by regulation.)

Restricted Use Pesticides

The Board may require certification and recertification of private pesticide applicators and charge a fee of up to \$25.00. The current fee is established by regulation at \$6 for a three-year certification.

Private Applicator Certification Requirement

All pesticide dealers who sell restricted use pesticides must be licensed. Application for a pesticide dealer’s license must be accompanied by a nonrefundable fee of \$50. All licenses shall expire on December 31 of the year for which they are issued. The license may be renewed annually upon application to the Department of Agriculture and Consumer Services, accompanied by a non-refundable fee of \$50 for each license. Each applicant must demonstrate upon written, or written and oral, examination his knowledge of pesticides, their usefulness and their hazards; his competence as a pesticide dealer; and his knowledge of the laws and regulations governing the use and sale of pesticides.

Pesticide Dealer Licensing Requirement

No person shall engage in the business of pesticide applicator within North Carolina unless he is licensed annually by the Board. Each license application shall be accompanied by a nonrefundable fee of \$50 for each applicator’s license and an additional \$10 for each aircraft to be licensed. A pesticide applicator is defined as any person who owns or operates a pesticide application business or who provides, for compensation, a service that includes the application of pesticides upon the lands or properties of another; any public operator; any golf course operator; any seed treater; any person engaged in demonstration or research pest control; and any other person who applies pesticides for compensation and is not exempt from this definition. It does not include:

Pesticide Applicator Licensing Requirement

a. Any person who uses or supervises the use of a pesticide (i) only for the purpose of producing an agricultural commodity on property owned or rented by him or his employer, or (ii) only (if applied without compensation other than trading of personal services between producers of agricultural commodities) on the property of another person, or (iii) only for the purposes set forth in (i) and (ii) above.

b. Any person who applies pesticides for structural pest control, as defined in the North Carolina Structural Pest Control Law (G.S. Chapter 106, Article 4C.)

Each applicant must demonstrate upon written, or written and oral, examination his competence as a pesticide applicator or public operator. In addition, to be licensed as a pilot, a person must have 125 hours and one year’s flying experience as a pilot in the field of aerial pesticide application.

No person shall perform services as a pest control consultant without first procuring from the Board a license. The application for a license shall be accompanied by an annual nonrefundable fee of \$50. A pest control consultant is defined as any person who, for a fee, offers or supplies technical advice, supervision, or aid, or recommends the use of specific pesticides for the purpose of controlling insects, plant diseases, weeds, and other pests, but does not include any person regulated by the North Carolina Structural Pest Control Act. Each applicant must demonstrate upon written, or written and oral, examination his competence as a pesticide consultant. An applicant for a pest control consultant license must possess a Ph.D., master’s, or bachelor’s degree in an agricultural or biological science from an accredited college or university with a minimum of 30 semester hours or 45 quarter hours of credit in subject areas pertinent to the category in which the applicant seeks to obtain a license. Emphasis of study must include insect, plant, bacterial, and fungal pests, as applicable to the category, and integrated pest management.

Pest Control Consultant Licensing Requirement

No person shall handle, transport, store, display, or distribute pesticides in such a

manner as to endanger man or his environment.

Every pesticide prior to being distributed, sold, or offered for sale within this State or delivered for transportation or transported in intrastate commerce or between points within this State through any point outside this State, shall be registered and such registration shall be renewed annually. Each manufacturer, distributor, or registrant of a pesticide shall supervise the activities of any employee or agent to prevent the making of deceptive or misleading statements about a pesticide. It shall be unlawful for any person to distribute, sell, or offer for sale any restricted use pesticide to any dealer who does not hold a valid N.C. Pesticide Dealer License.

A registration fee of \$50 for each brand or grade of pesticide is required. An additional \$200 delinquent registration penalty shall be assessed against the registrant for each brand or grade of pesticide marketed in North Carolina prior to registration.

An annual Pesticide Environmental Trust Fund assessment fee is required for each brand or grade of pesticide registered. This fee is either \$25.00 or \$50.00, based on gross sales of the pesticide within the State for the previous year. The assessments provide funding for agromedicine efforts at East Carolina University, North Carolina State University, and North Carolina A&T University and for pesticide environmental programs administered by the N.C. Department of Agriculture & Consumer Services.

Registration is subject to refusal or cancellation for cause and upon hearing.

Any brand or grade found to be deficient or excessive in active ingredients, misbranded, adulterated, or not registered is subject to "Stop Sale, Stop Use or Removal Orders."

The Pesticide Board may assess a civil penalty of not more than \$2,000 against any person who violates or directly causes a violation of any provision of this Article or any rule adopted pursuant to this Article. In determining the amount of any penalty, the Board may consider the degree and extent of harm caused by the violation and the cost of rectifying the damage caused by the violation.

Notwithstanding any other provision of this Law, the maximum penalty which may be assessed under this section against a "private pesticide applicator" is \$500 and such penalties may be assessed only for willful violations.

Any person who shall be adjudged to have violated any provision of the Law, or any regulation of the Board adopted pursuant to this Law, shall be guilty of a Class 2 misdemeanor and for each violation shall be liable for a penalty of not less than \$100 or more than \$1,000 or shall be imprisoned for not more than 60 days, or both. In addition, if any person continues to violate or further violates any provision of this Article after written notice from the Board, the court may determine that each day during which the violation continued or is repeated constitutes a separate violation subject to the foregoing penalties.

North Carolina Pesticide Board

The North Carolina Pesticide Board is a seven-member, governor appointed Board charged with the duty of governing pesticide management and control as set forth in the North Carolina Pesticide Law of 1971. The members represent different sectors of the regulated public.

The Board adopts rules and regulations and makes policies for the program outlined in the North Carolina Pesticide Law of 1971. Board members serve staggered four-year terms. Appointments to fill vacancies in the Board are of individuals having the same credentials as the predecessor.

MEMBERS OF THE NORTH CAROLINA PESTICIDE BOARD, 2007

(N.C. General Statute §143-436)

One member each representing the North Carolina Department of Agriculture and Consumer Services; the North Carolina Department of Environment and Natural Resources; and the State Health Director or his designee. The persons so selected may be either members of a policy board or departmental officials or employees.

Dr. Colleen M. Hudak-Wise, Director, Agronomic Services Division, N. C. Department of Agriculture and Consumer Services, 1040 Mail Service Center, Raleigh, NC 27699-1040 (Tel. 919/733-2655 office) colleen.hudak@ncmail.net

* **Dr. Ricky L. Langley**, Medical Epidemiologist, Occupational and Environmental Epidemiology Section, N. C. Department of Health and Human Services, 1912 Mail Service Center, Raleigh, NC 27699-1912 (Tel. 919/715-6428 office) rick.langley@ncmail.net

Ms. Robin W. Smith, Assistant Secretary for Planning and Policy, N.C. Dept. of Environment and Natural Resources, 1601 Mail Service Center, Raleigh, NC 27699-1601 (Tel. 919/715-4141) robin.w.smith@ncmail.net

A representative of the agricultural chemical industry.

** **Dr. Thomas Allen Scarborough**, 7905 Farnham Ct., Raleigh, NC 27616
(Telephone: 919/676-4113 work) allen.scarborough@bayercropscience.com

A person directly engaged in agricultural production.

Mr. William “Shawn” Harding, 762 Harding Lane, Chocowinity, NC 27817
(Tel. 252/946-9349 home) info@southsidefarms.com

Two at-large members, from other fields of endeavor, one of whom shall be a nongovernmental conservationist.

Mr. Don F. Rogers, 2040 Dove Lane, Clayton, NC 27527
(Tel. 919/359-1004 home) neuseriverinspect@embarqmail.com

Dr. W. Benson Kirkman, 3712 Eakley Court, Raleigh, NC 27606
(Tel. 919/859-1187 home) bkirkman@mindspring.com

** Vice Chairman

Secretary, James W. Burnette, Jr.

North Carolina Pesticide Board

1090 Mail Service Center, Raleigh, NC 27699-1090

North Carolina Pesticide Board Meetings

February 13, 2007

The NC Pesticide Board discussed vacancies on the Pesticide Advisory Committee (PAC). The vacancies are the State Health Director or his/her designee, One Ecologist (at large), One member representing the Division of Waste Management of the N.C. Department of Environment and Natural Resources (NCDE&NR), and One Representative of Agri-business (at large). Board Secretary James Burnette will pursue nominations for the four vacancies and advise the Board at a future meeting on the progress being made to fill all vacancies. Mr. Burnette also informed the Board that a letter of willingness to serve on the PAC was mailed to existing members and eight out of the fourteen existing members have responded.

The Board considered a recommendation for the vacant PAC member to represent “a public utility or railroad company which uses pesticides.” Ms. June Small, with the North Carolina Electric Membership Corporation’s Utilities Vegetation Management Association, submitted the recommendation for Mr. Jimmy Brown, Director of Maintenance Services, Energy United to serve on the PAC. The Board approved the nomination.

A PETF proposal was presented to the Board by Mr. John Dalley, NCDA&CS, Pesticide Section for funding assistance for a new Inspection Data Management System. The Section hopes to develop a paperless inspection system for all inspections at an estimated cost of \$64,250.00. The amount requested from PETF is \$49,250.00. The remaining cost will be paid from funding received from USDA. The proposal was approved for the requested amount.

Ms. Melinda Wiggins, Executive Director, Student Action with Farmworkers (SAF), presented a PETF proposal, Into the Fields Health Education Project. The objectives of the project are to train 11 bilingual (Spanish/English) college students on health concerns of farmworkers, pesticide safety, and techniques of outreach and public presentation; educate more than 1,500 farmworkers about occupational safety and health issues, with a focus on pesticides, in order to enable them to protect themselves while working in the fields; and disseminate educational materials about pesticides and results of this initiative to farmworkers and the public. The Board approved the funding request of \$22,883.00 for the project.

A PETF proposal was presented by Dr. Thomas Arcury, Wake Forest University School of Medicine for Pesticide Safety & Childbearing for Latina Farmworkers in N.C., Educational Materials. The educational materials include posters and broadsheets in Spanish and English versions. Dr. Arcury requested \$5,516.00 for the project, which was awarded.

Assistant Attorney General Barry Bloch presented settlement agreements for the Board’s consideration and approval.

April 10, 2007

The Board considered a recommendation submitted by Ms. Carrie Clark with the Conservation Council of North Carolina and Mr. Tom Harville, President of the NC Native Plant Society that Dr. John L. Randall, Assistant Director for Conservation at the N.C. Botanical Garden and Adjunct Professor of Ecology at the University of NC at Chapel Hill be appointed to the vacant “ecologist at large” position on the Pesticide Advisory Committee. The board approved the recommendation.

Consideration of a Section 18 Emergency Exemption for the use of BASF PTM SC INSECTICIDE (Fipronil) to control Nantucket Pine Tip Moth, *Rhyacionia frustrana*, in Loblolly Pine plantations in North Carolina was presented by Mr. Wilson Edwards of Weyerhaeuser Company. After much discussion, among the Board members, the Board ruled that the Section 18 be changed to meet the concerns of the members before it is sent to Commissioner Troxler for his signature.

Assistant Attorney General Barry Bloch presented settlement agreements for the Board’s consideration and approval.

June 12, 2007

Assistant Attorney General Barry Bloch discussed with the Board the cases against Mr. Charles Taylor and the options for a formal hearing of the cases. Mr. Taylor was not present at the meeting. After a closed session discussion, the Board decided to proceed with the hearing, immediately following an intermission from the day’s regular meeting.

The board heard a consideration of a recommendation for the vacant PAC position to represent “one representative of Agri-Business (at large). Ms. Erica Upton Peterson, Executive Vice President/CEO, NC Agribusiness Council, submitted a letter of recommendation for Mr. William M. McLawhorn, Jr., President, McLawhorn Crop Services, Inc., Cove City, NC. Mr. Larry B. Wooten, President, N.C. Farm Bureau Federation, also sent a letter of recommendation, and Dr. Alan York, Chairman of the Pesticide Advisory Committee also voiced his support for the appointment. The Board approved Mr. McLawhorn’s appointment.

A Pesticide Environmental Trust Fund proposal requesting additional funding for the Plastic Pesticide Container Recycling Program was presented by Mr. James W. Burnette, Jr., NCDA&CS. The request for \$60,000.00 to award recycling grants to eligible local governments who wish to establish a new plastic pesticide container recycling program, enhance an existing one, or restart an inactive one, was granted by the Board.

The 2006 John L. Smith Plastic Pesticide Container Recycling Award was presented by Mr. Burnette, NCDA&CS, to Mr. Lareo Reddick, who accepted on behalf of the Martin County Cooperative Extension Service, and to Mr. Mark Keene, who accepted on behalf of the Lenoir County Cooperative Extension Service.

A PETF final report was presented by Dr. Greg Cope, NCSU, on Assessing Hazards of Pesticides to Native Freshwater Mussels. The PETF awarded this project \$136,637.00.

Ms. Kay Harris, NCDA&CS presented the 2006 PETF Annual Financial Report in summary and provided each Board member with a portfolio that contained the entire report.

Assistant Attorney General Barry Bloch presented settlement agreements for the Board's consideration and approval.

July 10, 2007

The Board considered a recommendation for the vacant PAC position to represent "one local Health Director" submitted by Ms. Wanda Sandele, President of the Health Director's Association. Ms. Sandele recommended Mr. Phillip E. Tarte, Health Director, Franklin County, NC. The Board approved Mr. Tarte's appointment to the PAC.

Mr. Dexter Matthews, NCDENR, submitted a recommendation of Mr. Ted A Cashion, Senior Environmental Specialist, NCDENR, Division of Waste Management, Hazardous Waste Section, to the vacant PAC position to represent "one member representing the Division of Waste Management of the N.C. Department of Environment and Natural Resources." The Board appointed Mr. Cashion to the PAC.

Dr. Henry Wade, NCDA&CS presented an update on the registration of products to control Moles in North Carolina. Dr. Wade gave an update on the efforts of the Wildlife Resources Commission and the Pesticide Section to create a Memorandum of Understanding that would have opened the door for the NC Pesticide Board to adopt a regulation to designate two mole species, the eastern and hairy-tailed moles, as pests in NC. An MOU was drafted, but not signed by the Wildlife Resources Commission Director.

Assistant Attorney General Barry Bloch presented the Board with the "Final Agency Decision and Order" for the Charles Taylor cases. Mr. Bloch asked the Board to consider and approve this notice. The approval motion was seconded and carried.

Assistant Attorney General Barry Bloch presented settlement agreements for the Board's consideration and approval.

September 11, 2007

Mr. Michael A. Mitchell, NCDA&CS, gave the Board an overview of the new federal Pesticide Container and Containment Rule. Mr. Mitchell stated that the Pesticide program was recommending that the Board consider adopting the federal rules dialing with containment by reference, and leaving the enforcement of the container design rules to be accomplished under the Department's federal credentials as part of our ongoing performance partnership agreement with the EPA. Mr. James Burnette, NCDA&CS advised the Board that adopting the federal regulation would require rulemaking, and that they were being asked to consider a motion to request that the Division begin the rulemaking process. The Board approved the rulemaking process to begin.

Consideration to change the meeting dates and times of the NC Pesticide Board was heard. According to meeting history, the Board meets on an average of six times per year. The Board approved that the meeting schedule be changed from every month, according to agenda length, to every other month and that the starting time be discussed at a later time when the new Board members would be present.

Assistant Attorney's General Barry Bloch and Elizabeth Oxley presented settlement agreements for the Board's consideration and approval.

November 13, 2007

Mr. Shawn Harding and Mr. Don Rogers were introduced as the newest appointed Board members.

With the retirement from the Board of the previous Chairman and Vice Chairman, new Board members were elected to these positions by nomination and secret ballot voting. Dr. Rick Langley was elected as Board Chair and Dr. Allen Scarborough was elected Vice Chair.

The Board heard continued discussion of possible interim protection measures for the Carolina Heelsplitter Mussel. Dr. Henry Wade presented the Board with a Rule Proposal which contained a list of pesticides that could not be applied within the pesticide use limitation areas identified by the codes listed next to each product. The Board ruled that the proposals be referred to the public rule making process, without the SUNSET provision. The Board also instructed its Pesticide Advisory Committee to consider available information from NCSU, Fish and Wildlife, and Wildlife Resources Staff about other pesticides which may impact the Carolina Heelsplitter, and make recommendations to the Board for any other chemicals for which pesticide use limitation areas need to be included in the proposed rules.

A PETF proposal was presented by Dr. Greg Cope, Ms. Julia Storm and Ms. Catherine Prevost, all from NCSU, for Pesticides and Farmworker Health: A Toolkit to Enhance Pesticide Safety Training for Hispanic/Latino Workers. The total budget for this project is \$223,785 to be distributed at \$74,595 per year for the next three years. The Board approved the first year's funding with a project update before deciding to fund the following two years.

The Board discussed scheduling of the Ag-Mart (IR2005-22) hearing. The Board agreed to hear oral arguments in this case at its January 8, 2008 meeting.

Assistant Attorney General Barry Bloch presented settlement agreements for the Board's consideration and approval.

December 11, 2007

The Board considered nominees to the Pesticide Advisory Committee. The vacant position, "One member representing the State Health Director or his/her designee" was filled by Dr. Mina Shehee, Division of Public Health. The vacant position, "One member representing the North Carolina Department of Environment and Natural Resources" was filled by Mr. Ted Bush, Division of Water Quality, DENR. The vacant position, "One member of the North Carolina Agricultural Aviation

Association” was filed by Mr. Harold Thompson, Air Ag, Inc.

Consideration of the matter concerning the Richard E. Sherman, Warning Letter (IR2007-50) was heard. The Board ruled that the formal hearing for Mr. Sherman be calendared for the March, 2008 Board meeting.

A Respondent’s Motion to Disqualify, Board member, Dr. Benson Kirkman from the Ag-Mart (IR2005-22) hearing was considered. After discussion, the Board denied the Motion to Recuse Dr. Kirkman. Assistant Attorney General Barry Bloch presented settlement agreements for the Board’s consideration and approval.

The North Carolina Pesticide Advisory Committee

The North Carolina Pesticide Law of 1971 establishes a twenty-member Pesticide Advisory Committee to advise the N.C. Pesticide Board on technical questions and on the development of rules and regulations. Members of the Advisory Committee represent different sectors of the regulated public. Members of the Committee serve at the pleasure of the Board.

Secretary, James W. Burnette, Jr., 1090 Mail Service Center, Raleigh, NC 27699-1090

PESTICIDE ENVIRONMENTAL TRUST FUND

Throughout 2007, the North Carolina Department of Agriculture & Consumer Services (NCDA&CS) continued to fulfill the mandate of N.C. General Statutes §143-442 and §143-468 which specify the collection and disposition of environmental assessment fees that pesticide manufacturers and distributors pay when they register pesticide products for sale in North Carolina.

RECEIPTS for 2007

NCDA&CS collected \$ 511,546.49 in environmental assessment fees from the registration of approximately 13,485 pesticide brands during 2007. Fifty-six percent of the receipts were for products with reported annual North Carolina gross sales of less than \$5,000, and forty-four percent of the receipts were for products with annual sales of \$5,000 or more. (The annual environmental assessment/product is \$25 or \$50 per brand, respectively.)

BALANCES for 2007

Initial receipts from pesticide registrants paying PETF assessments are deposited into the NCDA&CS Pesticide Environment Assessment Fund (PEAF, Account No. 6136). Transfers are made from Account No. 6136 according to North Carolina G.S. § 143-468(b) as follows: 25% to agromedicine and 75% to the Pesticide Environmental Trust Fund (PETF, Account No. 6137), the account which is used by NCDA&CS to sponsor the various pesticide environmental programs summarized in this report.

As of December 31, 2007 there was a balance of \$ 316,556.90 in Account No. 6136 and a balance of \$ 221,604.83 in Account No. 6137. The total amount in both accounts as of December 31, 2007 was \$ 538,161.73.

EXPENDITURES FOR 2007

During 2007, NCDA&CS expended a total of \$ 723,125.88 from Account Nos. 6136 and 6137.

As specified in North Carolina G.S. § 143-468(b), PETF funds were distributed to North Carolina State University (NCSU), NC A&T State University and East Carolina University for operational expenses associated with administering and implementing a statewide agromedicine program; each university received 2.5% of the total PETF receipts collected during the calendar year. Twenty-percent of the total PETF receipts were used to support the agromedicine information specialist position in NCSU's Environmental & Molecular Toxicology Department. The aggregate amount of PETF funds spent on agromedicine during 2007 was \$ 121,977.64.

A cumulative total of \$ 983,207.00 has been spent on pesticide container recycling projects since the program's inception. During 2007 seven counties (Alleghany, Caldwell, Edgecombe, Perquimans/Chowan/Gates, Richmond, Robeson, and Union) received a total of \$ 27,451.00 from the PETF to support local recycling of plastic pesticide containers during 2007. In addition, \$7,253.05 was spent on promotional materials for the state's pesticide container recycling program.

CUMULATIVE PETF FIGURES (1993-2007)

As of December 31, 2007, a total of \$ 5,610,225.59 in receipts has been collected since the inception of the PETF.

Since 1993, PETF has provided a total of \$ 1,474,235.52 for support of agromedicine in North Carolina.

Expenditures for pesticide environmental programs between 1995 and 2007 have totaled \$ 3,944,290.24.

Pesticide Environmental Trust Fund (PETF) Project Summaries

Into the Fields Health Education Project

Melinda Wiggins, Executive Director , Student Action with Farmworkers - a project to educate farmworkers about occupational safety and health issues, with a focus on pesticides, in order to enable them to protect themselves while working in the fields.

Pesticide Safety and Childbearing for Latina Farmworkers in North Carolina: Educational Materials

Dr. Thomas A. Acury et al, Wake Forest University School of Medicine - a project to develop pesticide safety and childbearing educational materials. Materials are disseminated to healthcare, educational and service providers throughout North Carolina.

Pesticide Division Inspection Data Management System

John Dalley, Project Leader, Eastern District Manager, Structural Pest Control & Pesticides Division - a project to develop electronic inspection and other reporting forms required for data collection to enforce the Pesticide Law of 1971 and its regulations. Paperless forms improve efficiency by eliminating physically handling and processing paper forms while enhancing report generation capabilities.

Pesticides and Farmworkers Health: A Toolkit to Enhance Pesticide Safety Training for Hispanic/Latino Workers

Dr. W. Gregory Cope, Julia A. Storm et al, NC State University Dept of Environmental & Molecular Toxicology - a three year project to enhance farmworker safety training by developing a toolkit that includes crop sheets, lesson plans for trainers, and references to other sources. Project begins early 2008.

Pesticide Disposal Assistance Program

The North Carolina Pesticide Disposal Assistance Program, created by the North Carolina Department of Agriculture & Consumer Services, provides the public a legal, free-of-charge, environmentally acceptable mechanism to dispose of unwanted or unusable pesticides. The Pesticide Disposal Program is a public service stewardship program contained within the Structural Pest Control and Pesticides Division.

The Pesticide Disposal Assistance Program disposes of pesticides collected at designated single day disposal collection sites and at permanent household hazardous waste collection sites across the North Carolina. In 2007, the Pesticide Disposal Assistance Program supervised the collection and disposal of 159,644 pounds of pesticide waste. A total of 79 single day disposal events were organized by NCDA&CS during 2007. NCDA&CS also assisted 26 counties in disposal of pesticides collected at permanent household hazardous waste (HHW) sites. A participant must notify the Pesticide Disposal Assistance Program prior to taking unwanted pesticides to a HHW site.

Pesticide Container Recycling

Farmers and commercial pesticide applicators participated in the recycling of plastic pesticide containers by transporting their empties to collection sites that were established by county agencies. USAg Recycling, Inc., the ACRC approved recycler in North Carolina, reported that 264,449 pounds of plastic were recycled for 2007. Eighty-three counties had plastic pesticide container recycling programs during the year. In 2007, \$27,451 in Pesticide Environmental Trust Fund (PETF) money was awarded to seven county programs in Alleghany, Caldwell, Edgecombe, Perquimans/Chowan/Gates, Richmond, Robeson, and Union.

Pesticide Inspector IIs visited recycling sites across the state to check on the cleanliness of pesticide containers being stored for recycling and to verify how previously awarded PETF grant money had been spent. An annual county report and receipts for purchases for 2007 were requested from each participating county. A financial audit of all county-awarded PETF recycling grants was also conducted.

During the past year at farm shows, fairs, and other events, the Pesticide Section distributed pencils and calibration cups to promote the recycling of plastic pesticide containers. These items were also distributed to local pesticide container recycling programs. Also, some counties received the following ACRC training videos on container recycling: Inspecting Used Pesticide Containers for Recycling and Pesticide Residue Removal for Plastic Containers. An educational brochure, Recycling Works, was given to many counties for distribution to farmers and commercial pesticide applicators.

In recognition of their outstanding recycling programs in 2006, the John Smith Pesticide Container Recycling Awards were given to Lenoir County for first place and to Martin County for second place. The first place prize was a check for \$2,000, and the second place prize was for \$1,000. The prizes are used to enhance the pesticide container recycling program. Also, both counties received an award plaque.

DEFINITIONS ADOPTED

Table I lists the analytical results of formulation samples based on the following:

“PASSED” - signifies that all active ingredients were found to be present at acceptable levels based on the label guarantee.

“FAILED DUE TO DEFICIENT ACTIVE INGREDIENT” – signifies that one or more active ingredients fell significantly below the guarantee. Such products are placed under “Stop Sale Order” and are removed from the market place.

“FAILED DUE TO EXCESSIVE ACTIVE INGREDIENT” - indicates a significant excess of one or more active ingredients. Since such formulations could be harmful to the user and/or result in excessive residues, these products are placed under “Stop Sale Orders” and are removed from the market place.

Table II lists the analytical results of microbiological samples based on the following:

“PASSED” - indicates that the product was effective in killing the specific microorganisms guaranteed by the product label.

“FAILED” - indicates that the product was ineffective in killing the specific microorganisms guaranteed by the product label or that bacterial contamination of the product was found.

Table III lists manufacturers that had products placed under “Stop Sale Orders” due to the following:

“UNREGISTERED” - signifies that the product was not registered at the time it was found by a pesticide inspector in the marketplace. Any such product is required to be registered prior to release from a “Stop Sale Order.” A delinquent registration penalty is also assessed against the manufacturer.

“MISBRANDED” - indicates that the labeling of a pesticide product failed to conform to federal and/or state requirements.

**Table I - Analytical Results of Formulation
Samples Collected During 2007**

**Summary of 2007
Program Activities Performed
Under the N. C. Pesticide Law of 1971**

PESTICIDE REGISTRATIONS

Total Number of Registrants	1,338
Registrants from North Carolina.....	132
Pesticide Products Registered.....	13,485
Section 24(c) Registrations	37
Section 18 Exemptions Granted.....	17
Product Registration Checks	7,723

COMPLIANCE MONITORING

Inspections	10,330
Worker Protection.....	477
USDA	193
Investigations	115
Citizen's Inquiries.....	96

Physical Samples Submitted for Analyses

Formulation	1,138
Disinfectants.....	169
Investigation	285
Domestic Wells	21

REGULATORY ACTIONS

Stop-Sale, Stop Use, Removal Orders.....	74
License or Certification Suspensions	0
License Revocations.....	1
Civil Penalties	49
Notices of Noncompliance.....	233
Notices of Warning	27
Delinquent Registration Penalties.....	\$ 5600.00

Courses Approved

Number of courses	1,429
Number of credits issued.....	3,129

EXAMINATIONS

Exams Administered.....	6,633
-------------------------	-------

LICENSED APPLICATORS

Pesticide Dealer Licenses	645
Ground Pesticide Applicator Licenses.....	9,485
Aerial Pesticide Applicator Licenses.....	89
Public Operator Licenses	4,534
Pest Control Consultant Licenses.....	95
Total Pesticide Licenses.....	14,898

CERTIFIED APPLICATORS

Private Pesticide (Active) Applicators	18,381
--	--------

PESTICIDE ENVIRONMENTAL TRUST FUND

Active Projects.....	4
Disbursements	\$ 493,411.64
Agromedicine	121,977.64
Container Recycling	60,000.00
Other Environmental Projects	311,434.00

Plastic Pesticide Container Recycling

Number of Counties with active programs.....	83
Total weight collected.....	264,449

PESTICIDE DISPOSAL ASSISTANCE PROGRAM

Containers	12,139
Drums	57
Pounds	159,644

OUTREACH

Fairs and/or Trade Shows	26
Presentations at Recertification Classes	239

NOTES
