DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label. This state-specific Section 24(c) labeling must be in the possession of the user at the time of application. Follow all applicable directions, restrictions and precautions on the EPA label for EPA Reg. No. 45728-16.

CBR-resistant cultivar (NC8C): 7.5 gallons per treated acre or 6.61 fl. oz. per 1,000 feet of row CBR-susceptible peanut cultivars (Florigant, GK-3, NC-5 Keel 29).

NOTE: The rate listed here is the “treated area application rate”. For bedded and strip applications, the “broadcast equivalent application rate” must be calculated to determine the buffer zone distance required by this labeling. See the EPA-registered label for instructions on calculating the broadcast equivalent rate.

CBR-highly susceptible cultivars (VA 81B, NC7): Use of Metam CLR™ 42% is not recommended.

Soil Preparation: Before applying Metam CLR™ 42%, residue from the previous crop should be decomposed (enhanced by fall discing) and plowed under in the spring with moldboard plow. Soil incorporated preplant herbicides must be applied before application of Metam CLR™ 42%.

Application: Apply Metam CLR™ 42% with a gravity flow regulator through chisel-type or countertype applicators. Center each applicator, one per row, in front of a bedshaper to mark the location of chemical deposition. Metam CLR™ 42% should be deposited 6 to 8 inches below the soil surface of beds. Bed and applicator spacing should coincide with row spacing at planting. Soil temperatures must be in the range of 60°F to 90°F at injection depth before application.

Tillage and Planting after Application: Do not mix treated soil with untreated soil by tillage or other cultural practices. Plant peanuts in the center of treated beds no earlier than 14 days following application of Metam CLR™ 42%. An at-planting nematicide treatment will be necessary in fields with heavy infestation of Root knot, Ring and/or String nematode.

METAM CLR™ is a Trademark of Taminco BVBA, a Belgian Company.
