

If you hear hoof beats it
may be a donkey?

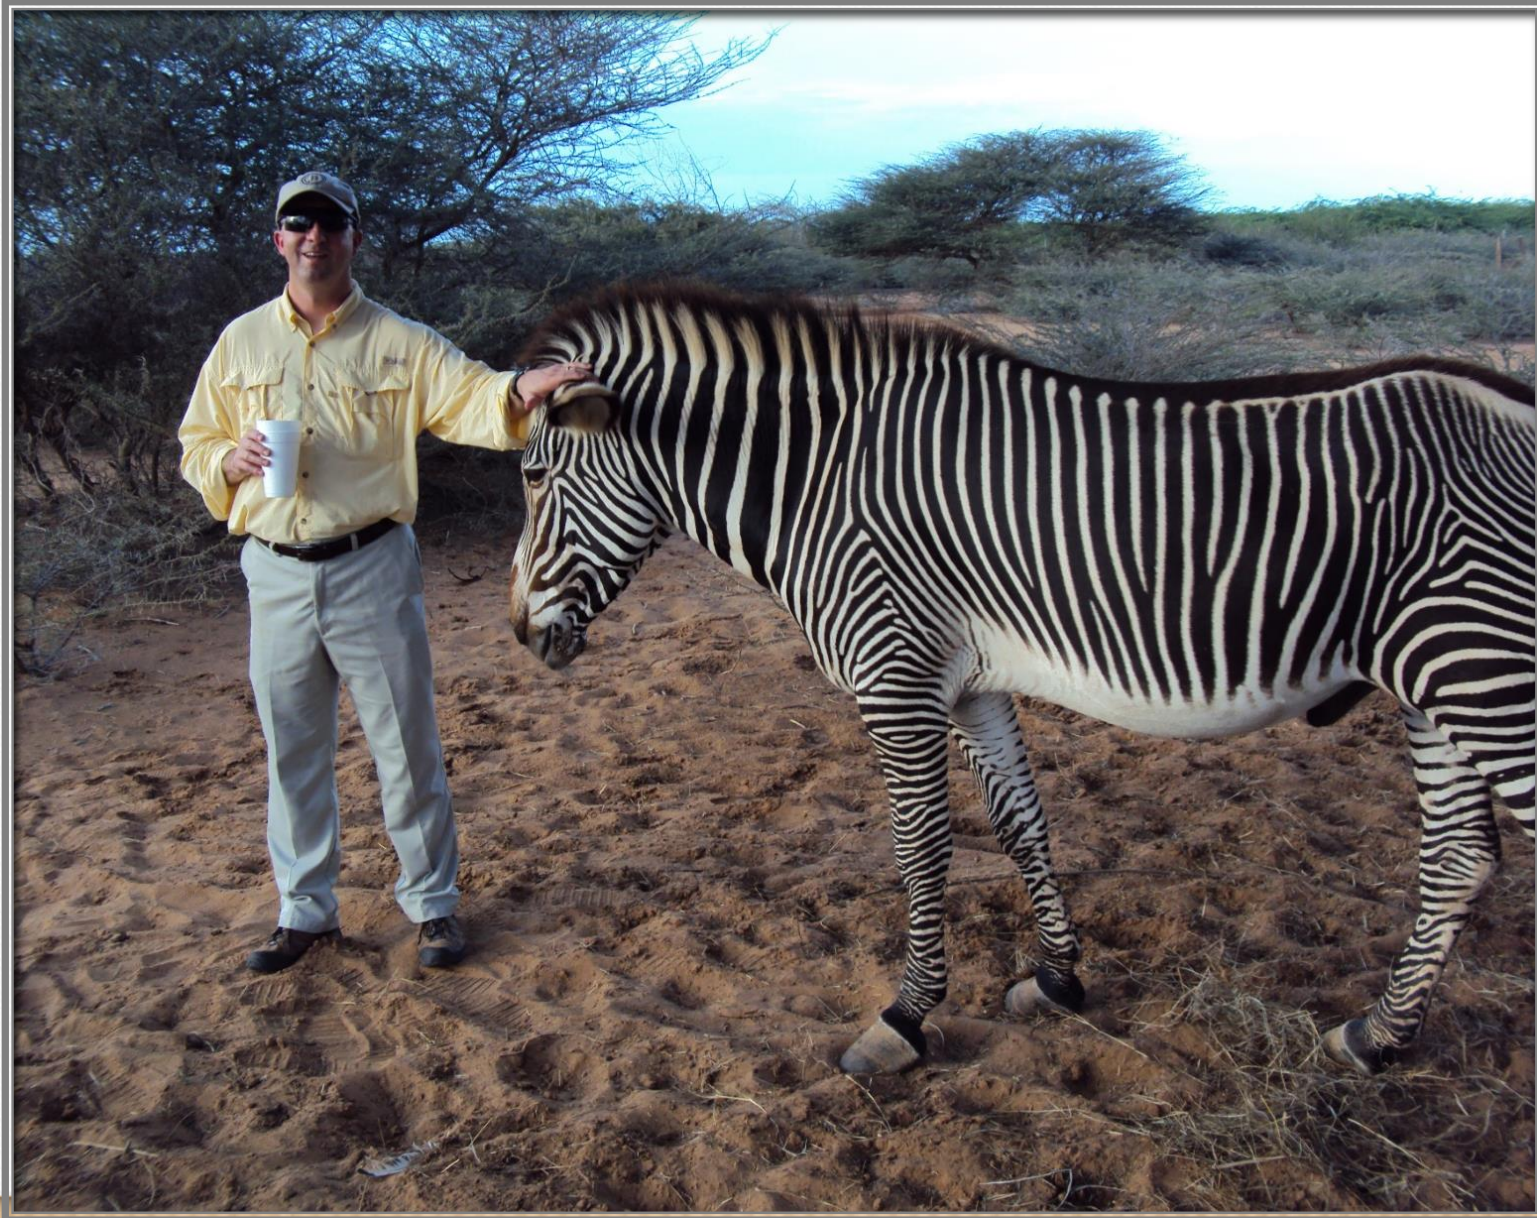

Cris Young, Assistant Director SPRS District 2 Florida/Georgia

In veterinary school did they teach you:

If you hear hoof
beats think...

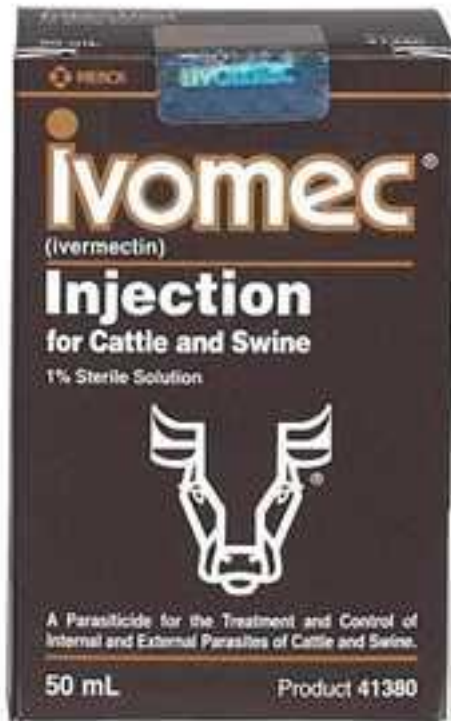

Seen anything unusual?

Have a drink

All we needed to learn in Veterinary
School...

How many FADIs do we do?

Max the DX lab system?

Max the capacity of our FADD numbers?

Enough to satisfy the WTO?

Do we do FADIs for
competency?

Do you all feel ready to go?

An ounce of
prevention...

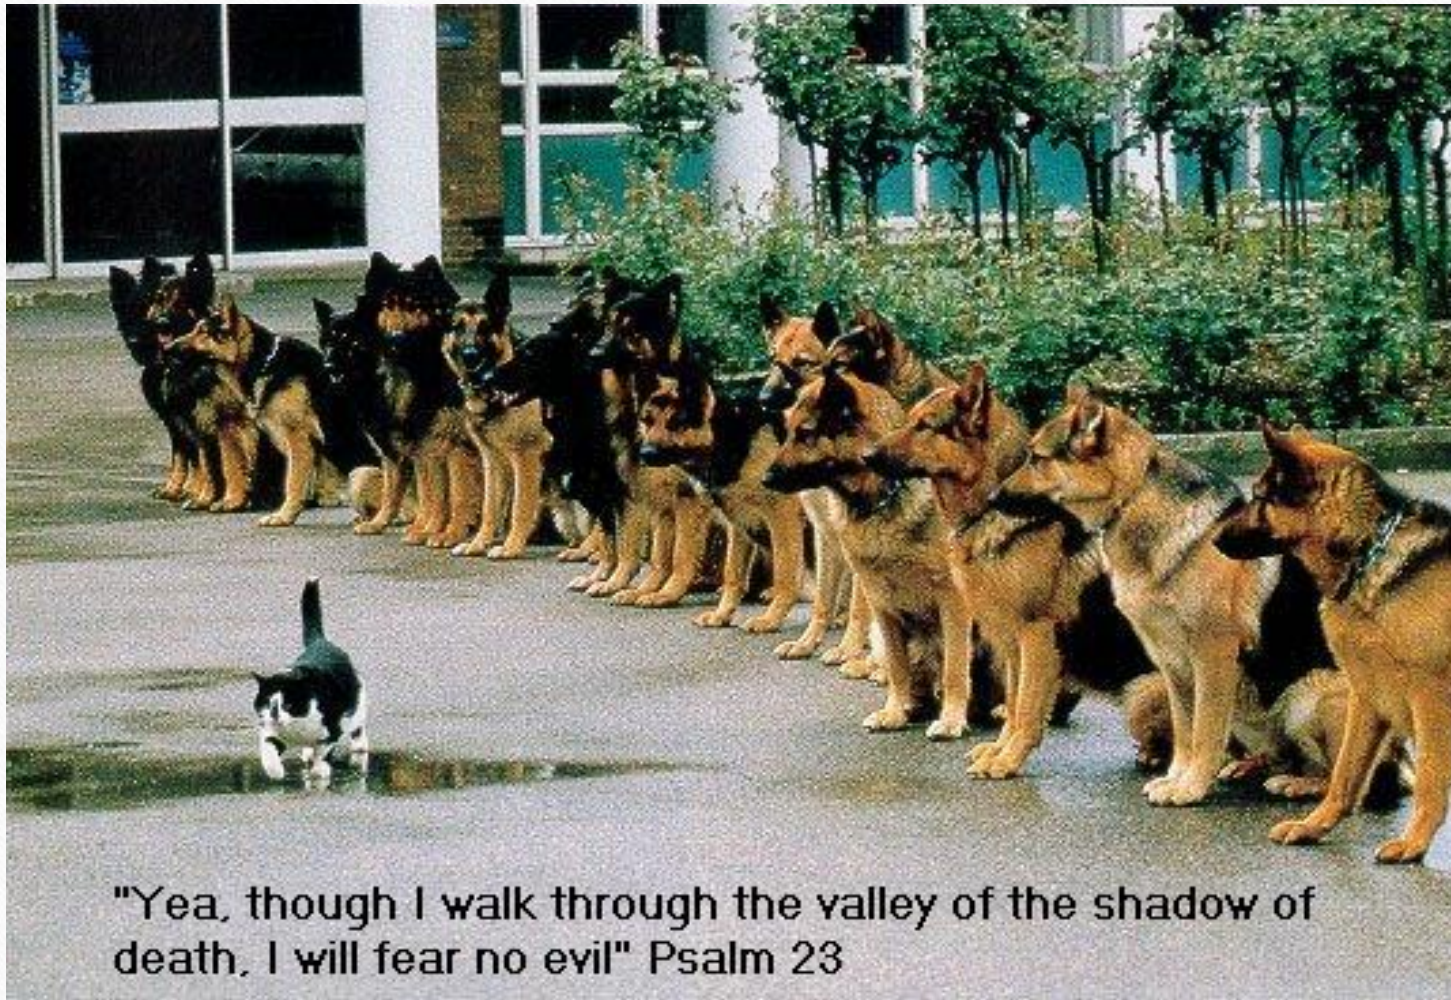

Farm Biosecurity

- Preventing the transmission (introduction or spread) of any disease

Don't Track It Back!

- After visiting public places: Change and Clean your shoes
- After visiting markets, sale barn, fairgrounds, zoos, animal parks: Change and Clean your shoes
- After visiting another farm: Change and/or Clean your shoes!

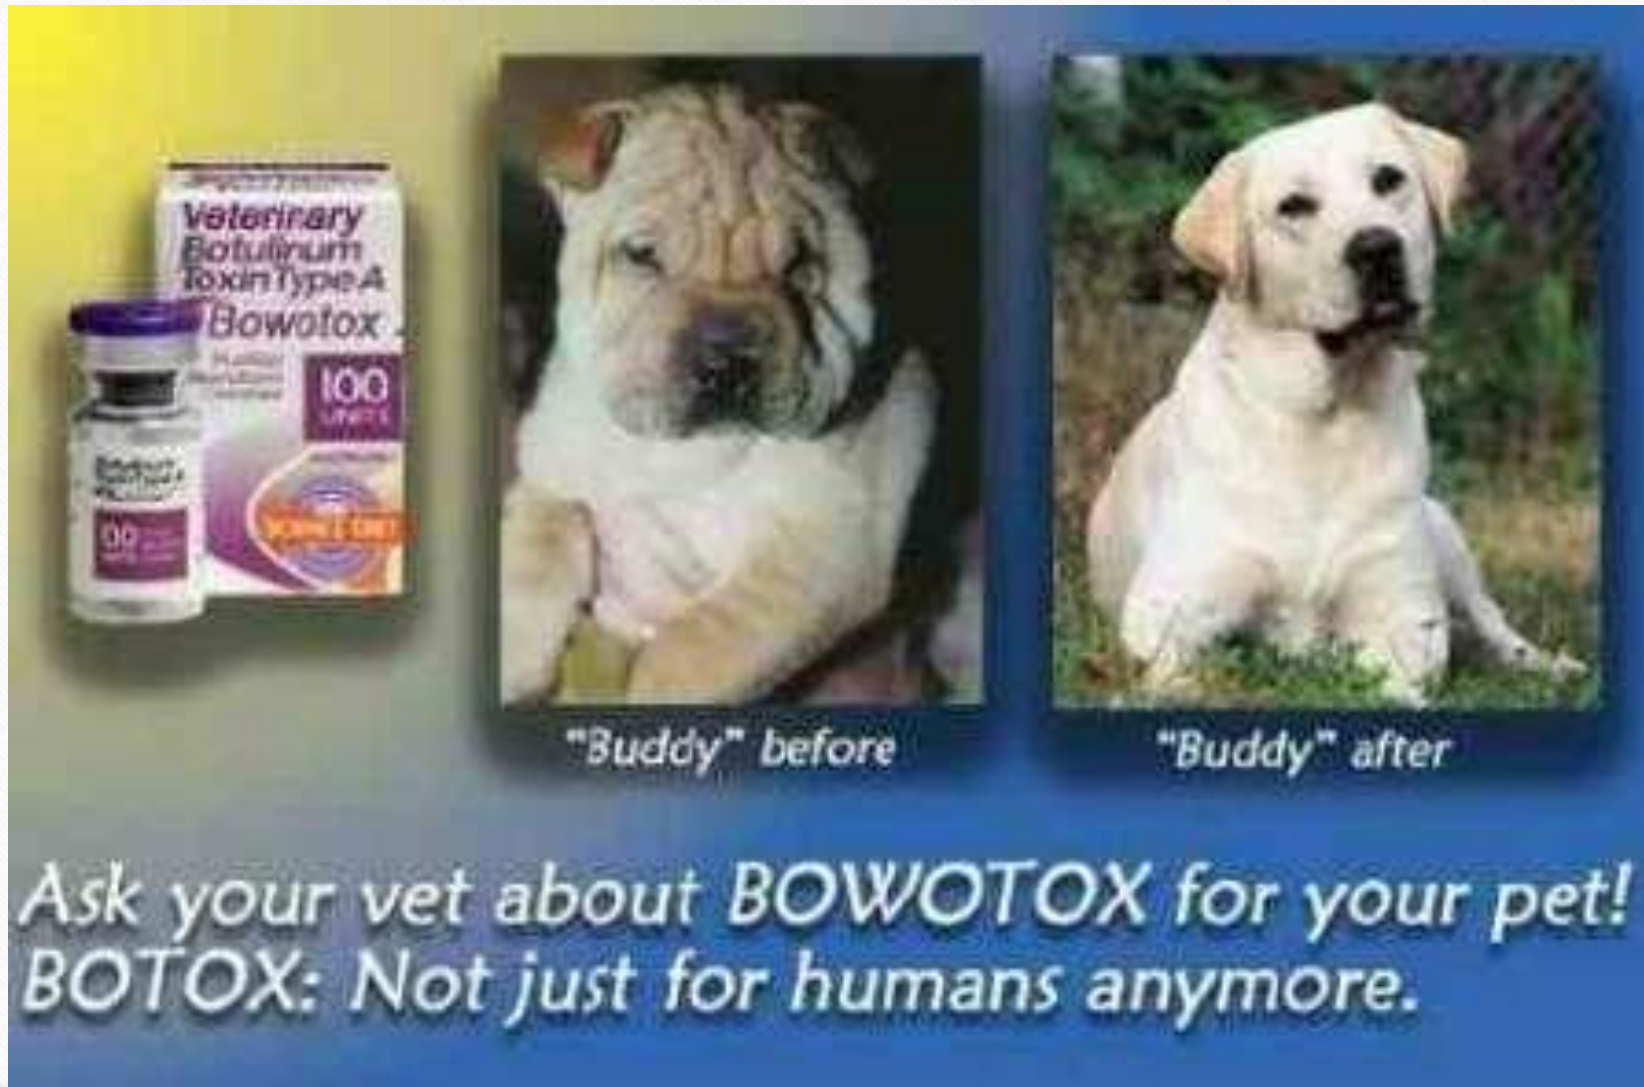

Confidence

"Yea, though I walk through the valley of the shadow of death, I will fear no evil" Psalm 23

- Believe you can do it!

New Veterinary Application

The advertisement features a central image with a blue background. On the left, there is a box and a vial of **Veterinary Botulinum Toxin Type A BOWOTOX**. The box is white with purple and orange accents and includes the text "100 UNITS". To the right of the product are two side-by-side photographs of a dog named "Buddy". The left photo, labeled "Buddy" before, shows the dog with a severely wrinkled and drooping face. The right photo, labeled "Buddy" after, shows the same dog sitting upright with a smooth, alert expression. Below the photos, the text reads: "Ask your vet about **BOWOTOX** for your pet! **BOTOX**: Not just for humans anymore."
