

**NORTH CAROLINA DEPARTMENT OF AGRICULTURE  
AND CONSUMER SERVICES  
MEAT AND POULTRY INSPECTION DIVISION  
Raleigh, North Carolina**

*Steve Troxler, Commissioner*

**MPID NOTICE**

**11-12**

**5-23-12**

**MICROBIOLOGICAL SAMPLING FRAME UPDATE FOR STATE INSPECTED PLANTS**

**I. Purpose:** This notice provides inspection program personnel with instructions for completing the microbiological sampling frame update (SFU) for meat and poultry products produced in state-inspected plants. The SFU is attached to this notice. An SFU should be completed for each new state-inspected plant upon inauguration of inspection, and each time there is a change in product produced at a state-inspected plant. The information provided on the microbiological SFU is used by the Raleigh office to generate sample requests.

**II. Cancellation:** MPID Notice 12-09 dated 9-15-09

**III. References:** FSIS Directives 10,210.1 and 10,230.2

**IV. Procedures:**

A. Fill in the establishment name, est. number, area, name of person completing the form, and survey date.

**B. Raw Products**

Check all product categories made by the plant. If the plant produces more than one ground product, check all categories that apply. Then check the predominant product made by the plant. Check all slaughter categories that apply. If more than one category is checked, also check the predominant species slaughtered by the plant.

**C. Ready-to-Eat Products**

Check all categories of post lethality exposed ready-to-eat products made by the plant.

D. If none of these products are made by this plant, check the category "No products listed above are produced in this establishment."

E. Submit one copy of the form by e-mail to Lisa Benton ([Elizabeth.Benton@usda.gov](mailto:Elizabeth.Benton@usda.gov)) in the Raleigh Office as soon as it is completed; print and maintain a second copy in the inspector's plant lab file.

Attachment: [MPIS Form 6c \(rev. 4/14/10\)](#)

Dr. Karen Beck  
State Director
