# North Carolina Feed Report

July 1, 2016 – June 30, 2017  
(FY 2017)

The objectives of the North Carolina Animal Feed Program are threefold. The first is the protection of livestock, poultry and pet owners by monitoring feed quality, checking labels and plant inspections. Next is the protection of manufacturers from dishonest competition. Finally, the protection of the health of the consumer of meat, milk and eggs through assurance that the animal products consumed are wholesome and free of harmful chemical residues and BSE. Enforcement of the feed law is the best means of accomplishing this. Essentially, the procedure consists of registration of all commercial feedstuffs and canned pet foods, the collection and analysis of official samples and the reporting and publishing of results.

The law requires the registration of all commercial feeds, canned pet food and pet and specialty pet feeds with the Department of Agriculture and Consumer Services. Applications for registration are examined as to guarantees, composition, compliance with standards, adequate directions and other requirements. When requirements are not met, opportunity for revision is given. The laws, along with the rules and regulations, and all registration forms are available at the following web site: [www.ncfeedandforage.com](http://www.ncfeedandforage.com).

A total of **642** firms were visited during **FY 2017**. These visits were conducted for a variety of reasons, which are listed below:

- Official sampling for compliance.....**869**
- Review and enforcement of Good Manufacturing Practices(GMP's).....**24**
- BSE inspections.....**304**
- Complaints.....**5**

## Summary of Activities - Samples

Total Commercial Feed Samples	<b>869</b>
Total Analyses for Medication	<b>192</b>
Total Analyses for Mold Toxins	<b>779</b>
Total Analyses for Label Guarantees	<b>4,652</b>

**North Carolina Feed Tonnage Report**  
**By Types of Feed and Material for Fiscal Years**  
**2015 - 2016 and 2016 - 2017 as Reported by Manufacturers\***
