MEMORANDUM

TO: Potential Fertilizer, Lime, and Soil Additive Registrants

FROM: Dr. Dianne Farrer, Seed and Fertilizer Program Administrator
Katrina Proper, Tonnage Program Coordinator

SUBJECT: Requirements for Registration of Fertilizer/Lime/Soil Additives and Payment of Fertilizer and Lime Taxes

The N.C. Department of Agriculture and Consumer Services (NCDA & CS) is responsible for registration of fertilizer, lime, and soil additives along with the assessment and collection of related tonnage taxes for fertilizer and lime. These registration and assessment programs ensure North Carolina producers and consumers alike have available to them quality products that meet outlined standards and are properly labeled. The attached package contains the documents needed to be licensed as manufacturers or distributors of registered products and to submit required fertilizer and lime tonnage taxes.

The NCDA & CS-Plant Industry Division is directly responsible for regulating the labeling and distribution of commercial fertilizer, lime and soil additives in this state. As a first step, all companies manufacturing or distributing fertilizer in North Carolina must first obtain a license with the NCDA & CS-Plant Industry Division (Note: Lime/ Landplaster as well as Soil Additive dealers are not required to obtain a license but their products are required to be registered). Beyond this company license, each fertilizer, lime and soil additive product offered for sale in North Carolina must be registered prior to distribution and sale. The appropriately completed forms: Application for License to Manufacture/Distribute Fertilizers, Application for Fertilizer Product Registration, Application for Lime Product Registration, and Soil Additive Registration Form must be forwarded to: NCDA&CS-Plant Industry Division-Seed and Fertilizer Section, 1060 Mail Service Center, Raleigh, NC 27699-1060. Technical questions related to the labeling may be directed to Dr. Dianne Farrer at 919-707-3756, email: Dianne.Farrer@ncagr.gov. Questions related to registration & fees must be directed to Helen Quinlan at 919-707-3733, email: Helen.Quinlan@ncagr.gov.

The NCDA&CS-Plant Industry Division is also responsible for the assessment and collection of related fertilizer and lime tonnage taxes. The tonnage assessment for fertilizers sold in this state is set at \$.50/ton with an additional \$.15/ton collected and transferred to the N.C. Agricultural Foundation. The tonnage assessment for lime sold in this state is \$.50/ton. There is no tonnage assessment for soil additives. The appropriately completed forms: Application for Fertilizer Manufacturer's Reporting Permit or Application for Agricultural Liming Material and Landplaster Reporting Permit must be completed and submitted to: NCDA&CS-Plant Industry Division, 1085 Mail Service Center, Raleigh, NC 27699-1085. Questions regarding tonnage taxes may be directed to Karen Myers at 919-707-3769 or by email at Karen.myers@ncagr.gov.

Your assistance in completing completing the registration and tonnage assessment payments is greatly appreciated.

APPLICATION FOR FERTILIZER MANUFACTURER'S REPORTING PERMIT

Date: _____

Name of Firm: _____

Address: _____ Phone: _____

To: NC Dept. of Agriculture & Consumer Services
Plant Industry Division
1085 Mail Service Center
Raleigh, NC 27699-1085

Application is hereby made for a permit to pay to the North Carolina Department of Agriculture and Consumer Services at the close of each month the inspection fee of \$0.50 per ton by the reporting system on commercial fertilizers, as provided for in Article 56, Chapter 106 of the General Statutes of North Carolina.

I agree to keep satisfactory and necessary records to indicate the tonnage of commercial fertilizers sold in the State of North Carolina and further, agree to grant the Commissioner of Agriculture, or his legal agent, permission to examine our records to verify our statement of tonnage.

I further agree to make a report of tonnage and grade and pay inspection fee by the 15th of each month, covering commercial fertilizers distributed or sold in the State of North Carolina during the preceding month, and to comply with all other provisions of said law and all rules and regulations established thereunder.

The anticipated brand name(s) to be used is as follows:

(If more space is necessary please use a separate sheet.)

Tonnage records will be available for Audit at the following address:
