

**SEED ARBITRATION GROWER LOSS DATA FORM**

**Grower:** \_\_\_\_\_

**Field Name:** \_\_\_\_\_

**CROP LOSS SUMMARY**

(The computation of lost revenue is necessary to determine damages allegedly incurred from your arbitration complaint. Figures such as expected yield and expected price per unit should be based on your own data or other verifiable sources such as North Carolina Department of Agriculture and Consumer Services agricultural statistics data. *Please document the source(s) of your yield and price figures in footnotes.* Saved expenses must be computed to adjust inputs to derive the net loss. Please indicate footnotes next to any section where further explanation would provide clarification. Contact your county Cooperative Extension Service office if you need assistance with this summary.)
