

# RESOURCE CONSERVATION WORKSHOP

High School students are invited to spend a week at NC State exploring soil and water conservation. Imagine yourself immersed in a soil pit, exploring muddy water, tracking wildlife, observing forest ecology, and bringing all together by crafting a conservation plan.

**JUNE 15-20TH, 2025 | NC STATE UNIVERSITY**

**Contact your local Soil  
and Water Conservation  
District to apply to this  
program today!**
