

## Stock Trails & Walkways

### Definition/Purpose

A Stock Trail and Walkway means to provide a stable area used frequently and intensively for livestock movement by surfacing with suitable material to improve water quality. Benefits may include reduced soil erosion, sedimentation and pollution from dissolved, particulate, and sediment-attached substances. (DIP)

### Policies

1. Adequate fencing is required.
2. Cost share of earth fill is only allowed where it is necessary to haul fill material from off site in dump trucks on public roads.
