

Agriculture Cost Share Program Storage Capacity Certification

For

Retrofit of On-Going Animal Operations BMP

ACSP Contract Number: _____ County: _____

Landowner/Project Name: _____

Certification of Closure

Upon completion of a waste impoundment closure as part of a Retrofit of On-Going Animal Operation BMP contract, the existing facility shall demonstrate the remaining storage volume is adequate for operation capacity. For any animal operations covered under a DWR State General Permit, a DWR animal waste management plan certification form shall be completed and a copy provided to the Soil and Water Conservation District Office.

I, _____ have reviewed
(Printed name)

the storage capacity, updated waste utilization plan, and other supporting materials for strict adherence to NRCS Standards, and DWR requirements. I hereby state the animal waste storage volume and treatment structures remaining on the facility are adequate for operation capacity.

Certification

- Professional Engineer
- Technical Specialist Structural Design (SD)
- Technical Specialist Waste Utilization Planning/Nutrient Management (WUP/NM)
