For actual cost items, the payment is based on 75 or 90 percent of actual cost, not to exceed the established cost share cap. The cost share cap listed is the maximum amount of cost share reimbursement allowed for that component/BMP.

*The maximum cost for a well, including all eligible components, is \$25,000.

*The maximum cost for a pond, including supporting practices, is \$30,000 or \$36,000. These caps do not include engineering costs.

* The maximum cost for the Livestock Water Storage BMP, including all eligible components, is \$15,000.

Other components can be used from the Agriculture Cost Share Program Average Cost List as needed by BMP design. Please refer to the each specific BMP webpage to find a list of common components for each BMP.
