

## **Policy for review of private Professional Engineer Designs for Commission Cost Share Program BMPs**

Private professional engineers are allowed to design BMPs for Commission cost share programs. Division of Soil and Water Conservation engineers will review sealed designs from private engineers to ensure the design meets the required program standards and specifications for the practice prior to construction. After completing the review of the private engineers design, the division engineer will provide written documentation on whether the practice as designed, meets the required program standards and specification to the local soil and water conservation district. The private engineer/firm will be responsible for construction oversight and certifying the installed practice as built to complete the cooperator's request for payment.
