

Agriculture Cost Share Program Biosolids Removal Certification

For

Lagoon Biosolids Removal BMP

ACSP Contract Number: _____ County: _____

Landowner/Project Name: _____

Certification of Biosolids Removal

Upon completion of the biosolids removal, the lagoon biosolids will have been land applied according to NRCS 590 Nutrient Management Standard, Division of Water Resources (DWR) regulations and ACSP policies. A copy of the DWR land application records shall be provided to the Soil and Water Conservation District Office, and the Division of Soil and Water Conservation. Certification of biosolids removal must be completed, signed and dated by Division of Soil and Water Conservation animal waste management staff and returned to the district office to be uploaded into CS2.

I, _____ have reviewed
(Printed name)

the biosolids removal waste management plan, land application records, and other supporting materials for strict adherence to the approved plans, NRCS Standards, and DWR requirements. I hereby state that, to the best of my abilities, the biosolids removal meets all NRCS Standards, DWR requirements and ACSP policies.
